GREATER DAYTON REGIONAL TRANSIT AUTHORITY

REQUEST FOR PROPOSAL

FOR

BUS WASH SYSTEMS

CONTRACT PROPOSAL RFP NO. GD 17-15

PREPARED BY
GREATER DAYTON REGIONAL TRANSIT AUTHORITY

MAY 26, 2017
DEAR PROSPECTIVE PROPOSER:

Re: Request for Proposal (RFP)  
BUS WASH SYSTEMS  
RFP No. GD 17-15

The Greater Dayton Regional Transit Authority (RTA) is soliciting proposals for BUS WASH SYSTEMS. Your firm is invited to submit a proposal.

A pre-proposal conference for this procurement will be held on June 6, 2017, at 10:00 A.M. in the Maintenance Conference Room at 705 Longworth Street, Dayton, OH 45402. Please make arrangements to attend. You may email clarification questions to the undersigned prior to the pre-proposal conference.

Please send your completed proposal clearly marked "BUS WASH SYSTEMS" to the undersigned by 2:00 P.M., Dayton (Eastern) time, June 27, 2017. Proposals may be hand delivered, mailed or sent by delivery services addressed to: Manager of Procurement, Greater Dayton Regional Transit Authority, 4 S. Main Street, Dayton, OH 45402. Please allow additional working days for the internal delivery of mailed proposals in addition to the U.S. Postal Service delivery.

DBE Participation: It is the policy of the Department of Transportation (DOT) that DBE’s, as defined in 49 CFR, Parts 23 and 26, shall have the maximum opportunity to participate in the performance of contracts financed in whole or in part with federal funds under this Agreement. Although the DBE goal for this procurement is 0%, RTA welcomes DBE participation.

Please Note: This proposal and any addenda are available on the Procurement Department page of our website, http://proc.greaterdaytonrta.org/. Please continue checking the website for any updates or addenda. If you have received this package via email or regular mail, all addenda will also be sent to you by the same method. However, if you accessed this package from our website, we may not have you in our database. In order to ensure that you receive all updates and addenda, please contact JoAnn Oliver by phone at 937-425-8313 or e-mail at joliver@greaterdaytonrta.org to be added to our database.

The proposals will be evaluated and further discussions may be held before announcement of the firm(s) selected. Should you have any questions or comments, please feel free to contact the undersigned at (937) 425-8310.

Sincerely,

Deborah Howard

REQUEST FOR PROPOSAL

FOR

BUS WASH SYSTEMS

ISSUED BY

GREATER DAYTON REGIONAL TRANSIT AUTHORITY

4 SOUTH MAIN STREET

DAYTON, OHIO 45402

MAY 26, 2017

LEGAL NOTICE RFP NO. GD 17-15
REQUEST FOR PROPOSAL

LEGAL NOTICE RFP NO. 17-15

Notice is hereby given that the Greater Dayton Regional Transit Authority (RTA) is requesting proposals for:

BUS WASH SYSTEMS

Copies of the Request for Proposals are available from the office of the Manager of Procurement, Greater Dayton Regional Transit Authority, 4 S. Main Street, Dayton, Ohio 45402.

A pre-proposal conference has been scheduled for June 6, 2017, at 10:00 A.M. in the Maintenance Conference Room at 705 Longworth Street, Dayton, OH 45402.

All proposals must be submitted in accordance with requirements set forth in the RFP, and must be received in the office of the Manager of Procurement at or before 2:00 P.M., Dayton (Eastern) time, on June 27, 2017.

RTA hereby notifies all proposers that, in regard to any contract entered into pursuant to this RFP, advertisement or solicitation, disadvantaged business enterprises will be afforded full opportunity to submit proposals in response and will not be subjected to discrimination on the basis of race, color, sex or national origin in consideration for an award.

Proposals will remain valid for a period of 90 days after the proposal due date and prior to award. RTA reserves the right, in the interest of the Authority, to postpone, accept or reject any and all proposals and to waive any additional informality in the proposals received.

Deborah Howard
Manager, Procurement
PART I
TERMS AND CONDITIONS
PART I - TERMS AND CONDITIONS

Section 1: Definitions

Definitions
Unless otherwise specifically stated, the following terms shall have the following definitions.

1.1 RTA
Greater Dayton Regional Transit Authority.

1.2 RFP
Announcement of Request for Proposals as issued by RTA on MAY 26, 2017.

1.3 Proposal
Documents offered by Proposer to RTA pursuant to this Request for Proposal, including narrative, and related material.

1.4 Proposer
Firm or firms who, at RTA's request, offer a Proposal pursuant to this RFP.

1.5 Contractor or Consultant
The successful Proposer who will enter into a negotiated contract with RTA at the conclusion of the Proposal selection process.
PART I - TERMS AND CONDITIONS

Section 2: RTA Background

2.0 RTA Background

2.1 History

RTA is an independent political subdivision of the State of Ohio organized pursuant to Ohio Revised Code Section 306.30 through 306.71, inclusive, as amended.

The RTA was created on September 6, 1971, pursuant to the Revised Code, by ordinances of the Councils of the City of Dayton and the City of Oakwood. After completing the purchase of the assets of City Transit, the major privately owned public transportation system in the area, the RTA became operational on November 5, 1972. In September 1980, after the approval in the preceding April by the voters of the County of a one-half percent sales and use tax of unlimited duration for all purposes of the RTA, the boundaries of the RTA were extended to be co-extensive with the boundaries of Montgomery County and parts of Greene County.

2.2 Governing Body

All power and authority of the RTA is vested in and exercised by its nine (9) member Board of Trustees.
PART I - TERMS AND CONDITIONS

Section 3: Information

3.0 Information

3.1 Basis for Contract Negotiation
This RFP and the resulting Proposals shall be used as the basis for contract negotiation.

3.2 Receipt of Proposals
Sealed Proposals marked "BUS WASH SYSTEMS" will be received at the office of the Manager of Procurement, Greater Dayton Regional Transit Authority, 4 S. Main Street, Dayton, OH 45402, until 2:00 P.M., Dayton (Eastern) time, on June 27, 2017. Proposals received by RTA after that date and time will not be opened or considered. An original and five (5) copies of the Proposal shall be submitted.

3.3 Proposal Modifications
Written changes to submitted Proposals will be accepted if received by RTA prior to the Proposal deadline, but only if submitted in a sealed envelope and plainly marked "BUS WASH SYSTEMS". All changes received after the Proposal deadline will not be opened or considered.

3.4 Rejection of Proposals
RTA reserves the right to reject any or all Proposals. Issuance of this RFP does not bind RTA to award a contract, nor does RTA in any way assume liability for expense incurred by Proposer in preparation of its Proposal.

3.5 Addenda to RFP
Any clarifications or further instructions to Proposers, whether as a result of questions raised by Proposers or initiated by RTA itself, will be sent to all Proposers in addendum form.

3.6 Requests for Clarification
All requests for clarifications or changes must be submitted in writing in time to be received by the RTA Procurement Department at least ten (10) calendar days prior to the date on which the proposals are due. Proposers should address such requests to RTA, Attention: DEBORAH HOWARD, 4 SOUTH MAIN STREET, Dayton, Ohio 45402.

Any information given to a proposer concerning the RFP will be furnished to all prospective proposers as an addendum of the RFP if such information is necessary to proposers in submitting proposals on the RFP or if the lack of such information would be prejudicial to uninformed proposers.
3.7 **Non-Collusion Affidavit**

Proposer shall submit, with its Proposal, an affidavit stating that neither Proposer nor its agents, nor any other party on its behalf, has paid or agreed to pay, directly or indirectly, any person, firm, or corporation, any money or valuable consideration for assistance in procuring or attempting to procure the contract that may result from this RFP, and further agrees that no such money or consideration will be hereafter paid. This affidavit must be on the form provided by RTA, which is made a part of this RFP.

3.8 **Contract Award**

A. The RTA reserves the right, as the interests of the Authority may require, to postpone, accept or reject any and all proposals and to waive any informalities in the proposals received, and to award the contract(s) to the best responsive and responsible proposer.

B. In awarding a contract(s), the RTA reserves the right to consider all elements entering into the determination of the responsibility of the proposer. Any proposal which is incomplete, conditional, obscure, or which contains additions not called for or irregularities of any kind, may be cause for rejection of the proposal.

C. Contract(s) for the purchase of goods and/or services may be awarded within 90 calendar days from the date upon which proposals were received to the best proposer(s) the RTA deems responsive and responsible.

D. In the event a single proposal is received, the RTA will conduct a price and/or cost analysis of the proposal. A price analysis is the process of examining and evaluating a price submitted without examining in detail the separate cost elements and the profit included in the cost proposal. It should be recognized that a price analysis through comparison to other similar procurements must be based upon an established or competitive price of the elements used in the comparison. The comparison must be made to a purchase of similar quantity and involving similar specifications. Where a difference exists, a detailed analysis must be made of this difference and costs associated thereto. RTA has the right to enter into a negotiated procurement should only a single proposal be received.

E. Where it is impossible to obtain a valid price analysis, it may be necessary for the RTA to conduct a cost analysis of the proposal price.

F. Competent and experienced auditors or price analysts shall make the price and/or cost analysis -- an engineer's estimate or comparison of the prices involved is insufficient.

3.9 **Sales Taxes**

The RTA is a tax-exempt institution and is free from all state and federal taxes. No such taxes shall be included in the Contractor's charges to the RTA. However, the Contractor may be liable for the payment of sales and use taxes on materials purchased for fulfilling this contract.
3.10  **Personal Property Taxes**

The person making a proposal shall submit to the RTA’s Chief Financial Officer, a statement affirmed under oath that the person with whom the contract is to be made was not charged at the time the proposal was submitted with any delinquent personal property taxes on the general list of personal property of any county in which the taxing district has territory or that such person was charged with delinquent personal property taxes on any such tax list, in which case the statement shall also set forth the amount of such due and unpaid delinquent taxes and any due and unpaid penalties and interest thereon. If the statement indicates that the taxpayer was charged with any such taxes, a copy of the statement shall be transmitted by the Chief Financial Officer to the county treasurer within 30 days of the date it is submitted. This affidavit must be on the form provided by RTA, which is made a part of this RFP.

3.12  **Project Manager**

The Project Manager for this procurement is DERRICK SMITH, Greater Dayton Regional Transit Authority (RTA), 600 Longworth Street, Dayton, Ohio 45402.

3.13  **Proposers Conference**

A Proposer Conference is scheduled for June 6, 2017 at 10:00 A.M. in the Maintenance Conference Room at 705 Longworth Street, Dayton, OH 45402.

Clarification about the RFP intent and any questions about the RFP may be emailed to Deborah Howard at dhoward@greaterdaytonrta.org. Answers that change or substantially clarify the RFP will be affirmed in writing. Copies of the questions and answers will be provided to all prospective proposers in addenda form.

3.14  **Evidence of Qualifications**

Each proposal must contain evidence of the Proposer’s qualifications to do business in the State of Ohio or covenant to obtain such qualification prior to award of the contract.

3.15  **Proprietary Information**

If a proposal includes proprietary data or information that the proposer does not want disclosed to the public, such data or information must be specifically identified as such on every page on which it is found. Data or information so identified will be used by RTA solely for the purpose of evaluating proposals and conducting contract negotiations.
Disclosure of any proprietary information by RTA shall be in strict accordance with the laws and regulations regarding disclosure in the State of Ohio.

3.16 Cost of Proposal Preparation

The cost of preparing a response to this RFP, including site visits, will not be reimbursed by the RTA.
PART I - TERMS AND CONDITIONS

Section 4: Federal Transit Administration (FTA) Clauses

4.0 Required Federal Transit Administration (FTA) Clauses

The following clauses shall be incorporated into any contract that results from this RFP. These clauses are prepared by federal, state or local regulations, and are not subject to negotiation.

4.1 No Obligation by Federal Government

The Purchaser and Contractor acknowledge and agree that, notwithstanding any concurrence by the federal government in or approval of the solicitation or award of the underlying contract, absent the express written consent by the federal government, the federal government is not a party of this contract and shall not be subject to any obligations or liabilities to the Purchaser, Contractor, or any other party (whether or not a party to that contract) pertaining to any matter resulting from the underlying contract.

The Contractor agrees to include the above clause in each subcontract financed in whole or in part with federal assistance provided by FTA. It is further agreed that the clause shall not be modified, except to identify the subcontractor who will be subject to its provisions.

4.2 Program Fraud and False or Fraudulent Statements or Related Acts

The Contractor acknowledges that the provisions of the Program Fraud Civil Remedies Act of 1986, as amended, 31 U.S.C. §§ 3801 et seq. and U.S. DOT regulations, “Program Fraud Civil Remedies, “49 C.F. R. Part 31, apply to its actions pertaining to this Project. Upon execution of the underlying contract, the Contractor certifies or affirms the truthfulness and accuracy of any statement it has made, it makes, it may make, or causes to be made, pertaining to the underlying contract or the FTA assisted project for which this contract work is being performed. In addition to other penalties that may be applicable, the Contractor further acknowledges that if it makes, or causes to be made, a false, fictitious, or fraudulent claim, statement, submission, or certification, the Federal Government reserves the right to impose the penalties of the Program Fraud Civil Remedies Act of 1986 on the Contractor to the extent the Federal Government deems appropriate.

The Contractor also acknowledges that if it makes, or causes to be made, a false, fictitious, or fraudulent claim, statement, submission, or certification to the Federal Government under a contract connected with a project that is financed in whole or in part with Federal assistance originally awarded by FTA under the authority of 49 U.S.C. § 5307, the Government reserves the right to impose the penalties of 18 U.S. C. § 1001 and 49 U.S.C. § 5307(n)(1) on the Contractor, to the extent the Federal Government deems appropriate.
The Contractor agrees to include the above two clauses in each subcontract financed in whole or in part with Federal assistance provided by FTA. It is further agreed that the clauses shall not be modified, except to identify the subcontractor who will be subject to the provisions.

4.3 Audit and Inspection of Records

Contractor shall permit the authorized representatives of RTA, its member entities, the Ohio Auditor of State, the U.S. Department of Transportation and the Comptroller General of the United States access to any books, documents, papers and records of the Contractor which are directly pertinent to this contract, for the purpose of making audit, examination, excerpts and transcriptions until the expiration of three (3) years after final payment under this contract.

Contractor further agrees to include in all its subcontracts hereunder, a provision to the effect that the subcontractor agrees that RTA, its member entities, the Auditor of State, the U.S. Department of Transportation and the Comptroller General of the United States or any of their duly authorized representatives shall, until the expiration of three (3) years after final payment under the subcontract, have access to books, documents, papers and records of such subcontractor involving transactions related to the subcontractor for the purpose of making audit, examination, excerpts and transcriptions. The term "subcontract" as used in this clause excludes (1) purchase orders not exceeding $10,000 and (2) subcontracts or purchase orders for public utility services at rates established for uniform applicability to the general public.

The periods of access and examination described above, for records which relate to (1) appeals under the "Disputes" clause of this contract, (2) litigation of the settlement of claims arising out of the performance of this contract, or (3) costs and expense of this contract as to which exception has been taken by the Comptroller General or any of his duly authorized representatives, shall continue until such appeals, litigation, claims or exceptions have been disposed of.

4.4 Federal Requirement Changes

Contractor shall at all times comply with all applicable FTA regulations, policies, procedures and directives, including without limitation those listed directly or by reference in the Agreement (Form FTA MA (7) dated October 2000) between Purchaser and FTA, as they may be amended or promulgated from time to time during the term of this contract. Contractor’s failure to so comply shall constitute a material breach of this contract.

4.5 Contract Termination

A. Termination for Default

In the event Contractor defaults in the performance of any of its obligations under this Contract, RTA shall have (in addition to and not in lieu of, all other rights, remedies and damages to which it may be entitled by reason of such default) the right and
option to terminate this Contract. In the event RTA exercises such right and option to terminate for default, RTA shall be obligated to pay only for work performed and accepted by RTA prior to the date upon which RTA gives Contractor written notice of termination for default, less 1) the amount of all damages suffered by RTA by reason of such default and 2) any amount by which the commercially reasonable cost of correcting the default and/or completing the work exceeds the unpaid portion of amount which would have paid hereunder; if the sum of 1) and 2) plus all amounts previously paid exceed the value of the work performed and accepted by RTA prior to the giving of written notice of default, Contractor shall be liable to RTA for such excess.

B. Termination for Convenience

RTA may terminate this Contract at any time at its convenience by giving notice in writing to Contractor, which notice shall state that it is a notice of termination for the convenience of RTA and shall specify the effective date of termination. Contractor shall promptly submit its termination claim, to RTA, and the parties shall negotiate the termination settlement to be paid Contractor. Contractor shall be paid pursuant to the contract for costs and expenses accrued to the date of termination. In such event, amounts previously paid to Contractor shall be credited against any amounts determined to be due to Contractor pursuant to this paragraph. Upon receipt of the notice of termination Contractor shall immediately cancel its outstanding orders for procurement of materials, supplies and other miscellaneous goods.

C. In the event of termination either for default or for the convenience of RTA, Contractor shall account for any property in its possession paid for from funds received from RTA, or property supplied to Contractor by RTA.

4.6 Title VI, Civil Rights Act of 1964, Compliance

The Greater Dayton Regional Transit Authority (RTA), in accordance with Title VI of the Civil Rights Act of 1964, as amended, 78 Stat. 252, 42 U.S.C. 2000d et seq. and Title 49, Code of Federal Regulations, Department of Transportation, Subtitle A, Office of the Secretary, Part 21, Nondiscrimination in Federally-Assisted Programs of the Department of Transportation issued pursuant to such Act, hereby notifies all proposers that it will affirmatively ensure that, in any contract entered into pursuant to this advertisement, minority business enterprises will be afforded full opportunity to submit proposals in response to this invitation and will not be discriminated against on the grounds of race, color, creed, sex, age or national origin in consideration for an award.

During the performance of this contract, the contractor, for itself, its assignees and successors in interest (“hereinafter referred to as the “contractor”) agrees as follows:

A. Compliance with Regulations: The contractor shall comply with the Regulations relative to nondiscrimination in federally-assisted programs of the Department of Transportation (hereinafter, “DOT”) Title 49, Code of Federal Regulations, Part 21,
as they may be amended from time to time (hereinafter referred to as the Regulations), which are herein incorporated by reference and made a part of this contract.

B. **Nondiscrimination:** The contractor, with regard to the work performed by it during the contract, shall not discriminate on the grounds of race, color, creed, sex, age or national origin in the selection and retention of subcontractors, including procurements of materials and leases of equipment. The contractor shall not participate either directly or indirectly in the discrimination prohibited by Section 21.5 of the Regulations, including employment practices when the contract covers a program set forth in Appendix B of the Regulations.

C. **Solicitations for Subcontracts, Including Procurements of Materials and Equipment:** In all solicitations either by competitive proposal or negotiation made by the contractor for work to be performed under a subcontract, including procurements of materials or leases of equipment, each potential subcontractor or supplier shall be notified by the contractor of the contractor’s obligations under this contract and the Regulations relative to nondiscrimination on the grounds of race, color, creed, sex, age or national origin.

D. **Information and Reports:** The contractor shall provide all information and reports required by the Regulations or directives issued pursuant thereto, and shall permit access to its books, records, accounts, other sources of information, and its facilities as may be determined by the RTA or the Federal Transit Administration (hereinafter “FTA”) to be pertinent to ascertaining compliance with such Regulations, orders and instructions. Where any information required of a contractor is in the exclusive possession of another who fails or refuses to furnish this information, the contractor shall so certify to the RTA, or the FTA as appropriate, and shall set forth what efforts it has made to obtain the information.

E. **Sanctions for Noncompliance:** In the event of the contractor’s noncompliance with nondiscrimination provisions of this contract, the RTA shall impose contract sanctions as it or the FTA may determine to be appropriate, including, but not limited to:

   (a) withholding of payments to the contractor under the contract until the contractor complies; and/or

   (b) cancellation, termination, or suspension of the contract, in whole or in part.

F. **Incorporation of Provisions:** The contractor shall include the provisions of paragraphs (1) through (6) in every subcontract, including procurements of materials and leases of equipment, unless exempt by the Regulations, or directives issued pursuant thereto. The contractor shall take such action with respect to any subcontract or procurement as the RTA or the FTA may direct as a means of enforcing such provisions including sanctions for noncompliance provided, however, that in the event a contractor becomes involved in, or is threatened with, litigation
with a subcontractor or supplier as a result of such direction, the contractor may request the RTA to enter into such litigation to protect the interests of the RTA and, in addition, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

4.7 Nondiscrimination

During the performance of this contract, Contractor agrees as follows:

Contractor will not discriminate against any employee or applicant for employment because of race, religion, color, creed, sex, sexual orientation, gender identity, disability, age, national origin or retaliation. Contractor will take affirmative action to ensure that applicants are employed, and the employees are treated during the employment without regard to their race, religion, color, creed, disability, sex, sexual orientation, gender identity, age or national origin. Such action shall include, but not be limited to the following: employment, upgrading, demotion, or transfer; recruitment advertising; lay-off or termination; rates of pay or other forms of compensation; and selection for training including apprenticeship. Contractor agrees to post in accessible places, available to employees and applicants for employment, notices setting forth the provisions of this nondiscrimination clause. Contractor will, in all solicitations or advertisements for employees placed by or on behalf of Contractor, state that all qualified applicants will receive consideration for employment without regard to race, religion, color, creed, sex, sexual orientation, gender identity, disability, age or national origin.

Contractor will send to each labor union or representative of workers with which it has a collective bargaining agreement or other contract or understanding, a notice advising the said labor union or workers' representative of Contractor's commitments under this section, and shall post copies of the notice in accessible places available to employees and applicants for employment. Contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, as amended and of the rules, regulations and relevant orders of the Secretary of Labor.

Contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, as amended and by rules, regulations and orders of the Secretary of Labor, or pursuant thereto, and will permit access to its books, records and accounts by FTA and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations and orders.

In the event of Contractor's non-compliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations or orders, this contract may be cancelled, terminated or suspended in whole or in part and Contractor may be declared ineligible for further RTA contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, as amended or by rule, regulation or order of the Secretary of Labor, or as otherwise provided by law. Contractor will include the foregoing provisions of this paragraph in every subcontract or purchase order unless exempted by rules, regulations or orders of the Secretary of Labor issued pursuant to Section 204 of Executive Order 11246 of
September 24, 1965, as amended so that such provisions will be binding upon each subcontractor or vendor. Contractor will take such action with respect to any subcontract or purchase order as RTA may direct as a means of enforcing such provisions, including sanctions for non-compliance, providing, however, that in the event Contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by RTA, Contractor may request the United States to enter into such litigation to protect the interest of the United States.

4.8 Contract Assurance (Nondiscrimination)

The contractor, sub-recipient, or subcontractor shall not discriminate on the bases of race, color, national origin, or sex in the performance of this contract. The contractor shall carry out applicable requirements of 49 CFR Part 26 in the award and administration of DOT-assisted contracts. Failure by the contractor to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy, as the recipient deems appropriate.

4.9 Americans with Disabilities

The Contractor agrees to comply with and assure that any subcontractor under this Project complies with all applicable requirements of the Americans with Disabilities Act (ADA) of 1990, as amended, 42 U.S.C. Sections 12101 et seq. and 49 U.S.C. Section 322; Section 504 of the Rehabilitation Act of 1973, as amended, 29 U.S.C. Section 794; Section 16 of the Federal Transit Act, as amended, 49 U.S.C. app. Section 1612; and the following regulations and any amendments thereto:

A. U.S. DOT regulations, "Transportation Services for Individuals with Disabilities (ADA)," 49 C.F.R. Part 37;

B. U.S. DOT regulations, "Nondiscrimination on the Basis of Handicap in Programs and Activities Receiving or Benefiting from Federal Financial Assistance," 49 C.F.R. Part 27;

D. Department of Justice (DOJ) regulations, "Nondiscrimination on the Basis of Disability in State and Local Government Services," 28 C.F.R. Part 35;

H. Federal Communications Commission regulations, "Telecommunications Relay Services and Related Customer Premises Equipment for the Hearing and Speech Disabled," 47 C.F.R. Part 64, Subpart F; and

4.10 Disadvantaged Business Enterprise Participation

A. Policy
It is the policy of the Department of Transportation (DOT) that DBE's, as defined in 49 CFR, Parts 23 and 26, shall have the maximum opportunity to participate in the performance of contracts financed in whole or in part with federal funds under this Agreement. The Disadvantaged Business requirements of these sections apply to this agreement.

B. DBE Obligation
The requirements of 49 CFR Part 26, Regulations of the U.S. Department of Transportation, apply to this contract. It is the policy of the RTA to practice nondiscrimination based on race, color, religion, creed, disability, sex, age or national origin in the award or performance of this contract. All firms qualifying under this solicitation are encouraged to submit bids/proposals. Award of this contract will be conditioned upon satisfying the requirements of this bid/proposal specification. These requirements apply to all bidders/offerors, including those who qualify as a DBE. A DBE contract goal of 0 percent has been established for this contract. The bidder/proposer shall make good faith efforts, as defined in Appendix A, 49 CFR Part 26, to meet the contract goal for DBE participation in the performance of this contract.

The bidder/offeror will be required to submit the following information: (1) the names and addresses of DBE firms that will participate in the contract; (2) a description of the work that each DBE firm will perform; (3) the dollar amount of the participation of each DBE firm participating; (4) written documentation of the bidder/proposer commitment to use a DBE subcontractor whose participation it submits to meet the contract goal; (5) written confirmation from the DBE that it is participating in the contract as provided in the commitment made under (4); and (5) if the contract goal is not met, evidence of good faith efforts.

C. Procedure
DBE’s are required to be certified prior to submission of bid/proposal under the Federal Unified Certification Program (UCP), by the Ohio Department of Transportation (ODOT) or the City of Dayton’s Human Relations Council. Please note that the City of Dayton’s other socio-economic programs are not acceptable.
The certification application is available upon request from ODOT at www.dot.state.oh.us/Divisions/ODI/SDBE/Pages/default.aspx, or by calling 614/466-7699. The City of Dayton may be reached at 937/333-1403. The application is to be completed by all DBE firms and submitted to ODOT or the City of Dayton, who will review and approve or disapprove the firm as a DBE.

D. Good Faith

To demonstrate that sufficient reasonable efforts were taken to meet the DBE contract goal, the proposer shall document the steps it has taken to obtain DBE participation including but not limited to the following:

(a) Whether the contractor/supplier solicited through all reasonable and available means (attendance at pre-proposal meetings, advertising and/or written notices) the interest of all certified DBEs who have the capacity to perform the work of the contract.

(b) Whether the contractor/supplier solicited this interest within sufficient time to allow the DBEs to respond to the solicitation.

(c) Whether the contractor/supplier took appropriate steps to follow up initial solicitations.

(d) Whether the contractor/supplier selected portions of work to be performed by DBEs to increase the likelihood that DBE goals will be achieved (including, when appropriate, dividing contracts into economically feasible units to facilitate participation, even when the prime contractor might otherwise prefer to perform these work items with its own forces).

(e) Whether the contractor/supplier provided adequate information about plans, specifications, and/or proposer requirements of the contract in a timely manner to assist them in responding to a solicitation.

(f) Whether the contractor/supplier negotiated in good faith with interested DBEs.

1. It is the proposer's responsibility to make a portion of the work available to DBE subcontractors and suppliers and to select those portions of the work or material needs consistent with the available DBE subcontractors and suppliers, so as to facilitate DBE participation. Evidence of such negotiation includes the names, addresses, and telephone numbers of DBEs that were considered; a description of the information provided regarding the plans and specifications for the work selected for subcontracting; and evidence as to why additional agreements could not be reached for DBEs to perform the work.

2. A proposer using good business judgment would consider a number of factors in negotiating with subcontractors, including DBE
subcontractors, and would take a firm's price and capabilities as well as contract goals into consideration. However, the fact that there may be some additional costs involved in finding and using DBEs is not in itself sufficient reason for a proposer's failure to meet the contract DBE goal, as long as such costs are reasonable. Also, the ability or desire of a prime contractor to perform the work of a contract with its own organization does not relieve the proposer of the responsibility to make good faith efforts. Prime contractors are not, however, required to accept higher quotes from DBEs if the price difference is excessive or unreasonable.

3. Whether the contractor/supplier rejected DBEs as being unqualified without sound reasons based on a thorough investigation of their capabilities. The contractor's standing within its industry, membership in specific groups, organizations, or associations and political or social affiliations (for example, union vs. non-union employee status) are not legitimate causes for the rejection or non-solicitation of proposals in the contractor's efforts to meet the project goal.

4. Whether the contractor/supplier made efforts to assist interested DBEs in obtaining bonding, lines of credit, or insurance as required by the recipient or contractor.

5. Whether the contractor/supplier made efforts to assist interested DBEs in obtaining necessary equipment, supplies, materials, or related assistance or services.

6. Whether the contractor/supplier effectively used the services of available contractors' groups; local, state, and federal minority/women business assistance offices; and other organizations as allowed on a case-by-case basis to provide assistance in the recruitment and placement of DBEs.

7. In determining whether a proposer has made good faith efforts, the RTA may take into account the performance of other proposers in meeting the contract. For example, when the apparent successful proposer fails to meet the contract goal, but others meet it, RTA may reasonably raise the question of whether, with additional reasonable efforts, the apparent successful proposer could have met the goal. If the apparent successful proposer fails to meet the goal, but meets or exceeds the average DBE participation obtained by other proposers, the RTA may view this, in conjunction with other factors, as evidence of the apparent successful proposer having made good faith efforts.

E. DBE Program Definitions, as used in the contract:

(a) Disadvantaged Business Enterprise means a small business concern:

1. That is, at least 51 percent owned by one or more individuals who are both socially and economically disadvantaged or, in the case of a
corporation, in which 51 percent of the stock is owned by one or more such individuals; and

2. Whose management and daily business operations are controlled by one or more of the socially and economically disadvantaged individuals who own it.

(b) **Small business concern** means, with respect to firms seeking to participate as DBEs in DOT-assisted contracts, a small business concern as defined pursuant to Section 3 of the Small Business Act and the Small Business Administration regulations implementing it (13 CFR Part 121) that also does not exceed the cap on average annual gross receipts specified in 26.65(b).

(c) **Socially and economically disadvantaged individual** means any individual who is a citizen (or lawfully admitted permanent resident) of the United States and who is —

1. Any individual who a recipient finds to be socially and economically disadvantaged on a case-by-case basis.

2. Any individual in the following groups, members of which are reputably presumed to be socially and economically disadvantaged:
   i. "Black Americans," which includes persons having origins in any of the Black racial groups of Africa;
   ii. "Hispanic Americans," which includes persons of Mexican, Puerto Rican, Cuban, Dominican, Central or South American, or other Spanish or Portuguese culture or origin, regardless of race;
   iii. "Native Americans," which includes persons who are American Indians, Eskimos, Aleuts, or Native Hawaiians;
   iv. "Asian-Pacific Americans," which includes persons whose origins are from Japan, China, Taiwan, Korea, Burma (Myanmar), Vietnam, Laos, Cambodia (Kampuchea), Thailand, Malaysia, Indonesia, the Philippines, Brunei, Samoa, Guam, the U.S. Trust Territories of the Pacific Islands (Republic of Palau), the Commonwealth of the Northern Marianas Islands, Macao, Fiji, Tonga, Kiribati, Tuvalu, Nauru, Federated States of Micronesia, or Hong Kong.
   v. "Subcontinent Asian Americans," which includes persons whose origins are from India, Pakistan, Bangladesh, Bhutan, the Maldives Islands, Nepal or Sri Lanka;
   vi. Women;
   vii. Any additional groups whose members are designated as socially and economically disadvantaged by the SBA, at such time as the SBA designation becomes effective.
(d) *Tribally-owned concern* means any concern at least 51 percent owned by an Indian tribe as defined in this section.

F. *Disadvantaged Business Enterprise Substitutions*

It is strictly prohibited that a Contractor change the DBE(s) identified in a contract. If proposer(s) submit the names and addresses of DBE firms that will participate in a contract; a description of the work that each DBE will perform, the dollar amount of the participation of each DBE firm, etc., changes cannot be made without prior approval of the DBE Officer. Furthermore, the Contractor may not terminate a subcontract agreement, reduce the scope of work nor decrease the proposed price to the DBE without prior approval of the DBE Officer. Should a Contractor determine that it is necessary to request the substitution of a DBE for reasons such as default on the part of the DBE, poor work performance, etc., the Contractor must request in writing authorization to make a change, prior to subcontracting with other certified DBEs.

Should it be determined that a need exists to request a substitution of a DBE or modify a DBE’s contract, the following steps are to be taken:

(a) The Contractor must notify the DBE Officer in writing of the necessity to reduce, modify or terminate a DBE’s contract and, when necessary, propose a substitute firm to fulfill the commitment.

This notification should include the rationale for the proposed substitution. Examples of acceptable reasons would be as follows:

1. A committed DBE was found unable to comply with the contract within the required timeframe.
2. A DBE was discovered not to be bona fide.
3. The DBE desires to make significant changes in the contract.

(b) The request should include the name, address and principal official of any proposed substitute, as well as the dollar value and specification/scope of work of the proposed contract or change order.

(c) RTA will review and evaluate the submitted documentation and respond to the request as soon as practicable. The RTA retains the right to request additional information or request an interview.

(d) A change must not be made until approved by RTA. The Contractor will then provide RTA with an executed copy of the DBE contract or change order with signatures of both parties to the agreement, within five (5) days.

(e) The RTA will not approve additional monies for escalated costs incurred by a Contractor when a substitution is necessary.
4.11 Substitution of Disadvantaged Subcontractors

A. In the event of a DBE Subcontractor's inability to perform, Contractor shall notify RTA immediately of the default. The notice to RTA shall also contain an express of intent to exercise good faith to replace the defaulting DBE with another DBE, if it is possible to do so. Contractor shall contact available DBE referral services and individual DBEs in furtherance of its good faith efforts. If a new DBE is obtained, Contractor shall notify RTA with copies of a new or amended contract and a new certification form. Contractor shall obtain RTA approval to ensure use of a certified DBE as a substitute. RTA reserves the right to disqualify the proposed substitute on grounds other than DBE eligibility.

B. Upon approval of the proposed substitute, RTA shall notify Contractor of such findings.

C. The contractor, sub-recipient, or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The contractor shall carry out applicable requirements of 49 CFR Part 26 in the award and administration of DOT-assisted contracts. Failure by the contractor to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy, as the recipient deems appropriate.

4.12 Incorporation of Federal Transit Administration (FTA) Terms

The preceding provisions include, in part, certain Standard Terms and Conditions required by DOT, whether or not expressly set forth in the preceding contract provisions. All contractual provisions required by DOT, as set forth in FTA Circular 4220.1F dated November 1, 2008, as amended are hereby incorporated by reference. Anything to the contrary herein notwithstanding, all FTA mandated terms shall be deemed to control in the event of a conflict with other provisions contained in this Agreement. The Contractor shall not perform any act, fail to perform any act, or refuse to comply with any Greater Dayton RTA requests which would cause Greater Dayton RTA to be in violation of the FTA terms and conditions.

4.13 Debarment and Suspension

The Contractor agrees to comply with U.S. Department of Transportation regulations, "Government Debarment and Suspension (Non-procurement)", 2 CFR Part 1200 and 2 CFR Part 180, and otherwise comply with the requirements of those regulations. This includes the requirement of the proposer to submit the Certification of Primary Contractor Regarding Debarment, Suspension, and Other Responsibility Matter for all projects when the total aggregate value of the Contract exceeds $25,000 and to submit a Certification of Lower Tier Participation Regarding Debarment, Suspension and Other Ineligibility and Voluntary Exclusions for each subcontractor which will have a financial interest in this Project which exceeds $25,000 or will have a critical influence on or a substantive control over the Project.
During the term of the Contract, the Contractor agrees to immediately notify RTA of 1) any potential subcontractor that is subject to this provision and to submit the appropriate certification prior to award of the subcontract; 2) any information that its certification or certification of its subcontractors was erroneous when submitted; and 3) any information that certifications have become erroneous by reason of changed circumstances.

The Contractor shall submit with each request for payment a list of all subcontractors to this contract which have a financial interest in this Project which exceeds $25,000 or have had a critical influence on or substantive control over the Project and submit evidence that the appropriate certificate has been submitted and that they remain valid.

RTA will not make payment to the Contractor or subcontractor which 1) does not comply with this contract provision or 2) is not in compliance with the above-cited federal requirements.

4.14 *Buy America Act*

The Contractor is to be governed by the latest provisions of the "Buy America" clause of the Surface Transportation Assistance Act of 1982, as amended, terms and conditions established under this act will apply, and execute the "Buy America" Certificate made a part of this document. See Title 23, Section 169, below:

*Section 169*

A. Notwithstanding any other provisions of law, the Secretary of Transportation shall not obligate any funds authorized or appropriated by this Act or by an act amended by this Act or, after the date of enactment of this Act, Title 23, United States Code, the Urban Mass Transportation Act of 1964, or the Surface Transportation Assistance Act of 1978, as amended, terms and conditions established under this act will apply, and administered by the Department of Transportation, unless steel, iron, and manufactured products used in such project are produced in the United States.

B. The provisions of Subsection "A" of this Section shall not apply where the Secretary finds:

(a) That their application would be inconsistent with the public interest.
(b) That such materials and products are not produced in the United States in sufficient and reasonably available quantities and of a satisfactory quality.
(c) In the case of procurement of bus or other rolling stock (including train control, communication and traction power equipment) under the Urban Mass Transportation Act of 1964, that:
   1. The cost of components which are produced in the United States is more than 60 per centum (60%) of the cost of all components of the vehicle or equipment described in this paragraph; and
   2. Final assembly of the vehicle or equipment described in this paragraph has taken place in the United States.
(d) That inclusion of domestic material will increase the cost of the overall project contract by more than ten per centum (10%) in the case of projects for the
acquisition of rolling stock, and twenty-five per centum (25%) in the case of all other projects.

C. For the purposes of this section, in calculating components costs, labor costs involved in final assembly shall not be included in the calculation.

D. The Secretary of Transportation shall not impose any limitation or condition on assistance provided under this Act, the Urban Mass Transportation Act of 1964 or the Surface Transportation Assistance Act of 1968, as amended, terms and conditions established under this act will apply, or Title 23, United States Code, which restricts any State from imposing more stringent requirements than this Section on the use of articles, materials and supplies mined, produced or manufactured in foreign countries in projects carried out with such assistance or restricts any recipient of such assistance from complying with such state imposed requirements.

E. Section 401 of the Surface Transportation Assistance Act of 1978 is repealed.

4.15 Disputes

Any dispute arising under this contract which is not disposed by agreement shall be decided by RTA, which shall reduce its decision to writing and furnish a copy of same to Contractor. RTA's obligation to provide a written decision shall be limited to its providing a written statement setting forth its conclusion; it shall not be required to state its reasoning, although it may choose to do so.

Pending any administrative decision or litigation concerning any dispute arising under this Contract, Contractor shall proceed diligently with the performance with this Contract.

4.16 Lobbying

During the term of this Contract, the Contractor agrees to comply with the provisions of 31 USC Section 1352, which prohibits the use of federal funds for lobbying by any official or employee of any federal agency, or member or employee of Congress; and requires the Contractor to disclose any lobbying of any official or employee of any federal agency, or member or employee of Congress in connection with federal assistance. The Contractor agrees to comply with U.S. DOT regulations, "New Restrictions on Lobbying," 49 CFR Part 20 and include these requirements in any subcontract which exceeds $25,000.

The Contractor and all subcontractors in receipt of contracts exceeding $25,000 shall submit Standard Form LLL quarterly to RTA. The Contractor shall also submit with each request for payment 1) a list of each contractor and subcontractor that is subject to the Lobbying Certifications, 2) certifications or evidence of certification for all subcontractors, 3) information regarding material changes in the previous certifications or disclosures, and 4) Standard Form LLL or evidence that the form was previously submitted to RTA.
4.17 **Clean Water Act/Clean Air Act**

Contractor must comply with the requirements of Section 508 of the Clean Water Act as amended, 33 U.S.C. Section 1368, and other appl. req. of the CWA as amended, 33 U.S.C. Sect. 1251 - 1377 and Section 306 of the Clean Air Act as amended, 42 U.S.C. Section 7414, and other applicable provisions of the Clean Air Act, as amended, 42 U.S.C. Sections 7401 thru 7671q., which prohibits the use of facilities included in the Environment Protection Agency (EPA) "List of Violating Facilities." This provision also requires the reporting of any violations to RTA and the EPA.

4.18 **Cargo Preference - Use of United States Flag Vessels**

The Contractor agrees:

A. To utilize privately owned United States-flag commercial vessels to ship at least 50% of the gross tonnage (computed separately for dry bulk carriers, dry cargo liners, and tankers) involved, whenever shipping any equipment, materials, or commodities pursuant to this contract, to the extent such vessels are available at fair and reasonable rates for United States-flag commercial vessels.

B. To furnish within 20 days following the date of loading for shipments originating within the United States, or within 30 working days following the date of loading for shipments originating outside the United States, a legible copy of a rated, "on-board" commercial bill-of-lading in English for each shipment of cargo described in the paragraph above, to the RTA (through the prime Contractor) and the Division of National Cargo, Office of Market Development, Maritime Administration, Washington, DC 20590, marked with appropriate identification for the project.

C. To insert the substance of the provisions of this clause in all subcontracts issued pursuant to this contract.

4.19 **Environmental Violations**

For all contracts and subcontracts in excess of $100,000, Contractor agrees to comply with all applicable standards, orders, or requirements issued under Section 306 of the Clean Air Act, 42 USC (1857(h); Section 508 of the Clean Water Act, 33 USC 1368; Executive Order 11738 and Environmental Protection Agency regulations (40 CFR, Part 15) which prohibit the use under non-exempt federal contracts, grants, or loans of facilities included on the EPA List of Violating Facilities. Contractor shall report violations to FTA and to the U.S. EPA Assistant Administrator Energy Conservation.

4.20 **Energy Conservation**

Contractor shall recognize mandatory standards and policies relating to energy efficiency which are contained in the state energy conservation plan issued in compliance with the Energy Policy and Conservation Act, as amended, 42 U.S.C. Sections 6321 et seq.
4.21 *Recycled Products*

The Contractor agrees to comply with all the requirements of Section 6002 of the Resource Conservation and Recovery Act (RCRA), as amended (42 U.S.C. 6962), including but not limited to the regulatory provisions of 40 CFR Part 247, and Executive Order 12873, as they apply to the procurement of the items designated in Subpart B of 40 CFR Part 247.

4.22 *Fly America*

The Recipient understands and agrees that the federal government will not participate in the costs of international air transportation of any persons involved in or property acquired for the project unless that air transportation is provided by U.S.-flag air carriers to the extent service by these carriers is available, in accordance with Section 5 of the International Air Transportation Fair Competitive Practices Act of 1974, as amended, 49 U.S.C. § 40118, and with U.S. General Services Administration (U.S. GSA) regulations pertaining to the use of United States flag air carriers, at 41 C.F.R. § 301-10.131 thru 301-10.143.

**Section 5: Required Clauses**

5.0 *Required Clauses*

5.1 *Affirmative Action Assurance Plan*

All proposers will be required to comply with all Equal Employment Opportunity laws and regulations and file with RTA's DBE Officer, if requested, an Affirmative Action Assurance Plan, consistent with RTA's non-discriminatory policy, subject to RTA approval. All proposers must submit with their proposal, a letter from the City of Dayton Human Relations Council, stating that they have an approved Affirmative Action Assurance Plan.

Failure to furnish the letter from the City of Dayton's Human Relations Council may be cause for rejection of your proposal. If a proposer is not on the approved list, please contact the following office to obtain an application:

City of Dayton, Ohio  
Human Relations Council  
371 W. Second Street  
Dayton, OH 45402  
(937) 333-1403

The proposal of any proposer who, in RTA's judgment, has failed to comply with such laws and regulations, even though their proposal may be the lowest in dollar amount, may be considered non-responsive and may be rejected.
5.2 **Changes**

Any proposed change in this contract shall be submitted to RTA for its prior approval and RTA will make the change by a contract modification.

RTA may, at any time, by a written order and without notice to the sureties, make changes within the general scope of this contract. If any such change causes an increase or decrease in the cost of, or the time required for, the performance of any part of the work under contract, whether changed or not changed by any such order, an equitable adjustment shall be made in the contract price or delivery schedule, or both, and the contract shall be modified in writing accordingly. Any claim by Contractor for adjustment under this clause must be asserted within 30 days from the date of receipt by Contractor of the notification of change provided, however, that RTA, if it decides that the facts justify such action, may receive and act upon any such claim asserted at any time prior to final payment under this contract. Failure to agree to any adjustment shall be a dispute within the meaning of the clause of this contract entitled "Disputes." However, nothing in this clause shall excuse Contractor from proceeding with the contract as changed.

5.3 **Interest of Members of or Delegates to Congress**

No member of, or delegate to the Congress of the United States shall be admitted to any share or part of this contract or to any benefit arising therefrom.

5.4 **Prohibited Interest**

No member, officer, trustee or employee of RTA or of a local public body during his/her tenure or one year thereafter shall have any interest, direct or indirect, in this contract or the proceeds thereof.

The proposal of any proposer who, in RTA's judgment, has failed to comply with such laws and regulations, even though their proposal may be the lowest in dollar amount, may be considered non-responsive and may be rejected.

5.5 **Ownership of Documents**

RTA shall be the owner of all plans, scope of work and related documents prepared pursuant to this Contract or provided to contractor by RTA. Any re-use of the plans, scope of work or related documents by RTA for other than the purpose intended by this Contract shall impose no liability on the Contractor.

5.6 **Maintenance of Records**

The Contractor shall, at all times, maintain records of actual overhead costs and actual general and administrative costs in conformity with generally accepted accounting principles, and subject to Title 41 of the C.F.R. The Contractor shall maintain records of direct labor costs and other applicable payroll expenses. Labor and payroll records shall be in sufficient detail to indicate, at a minimum, employees by name, employee's time spent on the project, and itemization of applicable fringe benefit expenses.
5.7 **Payments**

The payment terms of the contract shall be net 30 days. Invoices shall be sent to: Greater Dayton Regional Transit Authority, Attn: Accounts Payable, 4 South Main Street, Dayton, OH 45402. On a monthly basis, RTA will pay the contractor:

A. The monthly charge covering the contractor's fixed costs. The first invoice covering the first month of the contract shall be sent to RTA no earlier than the 15th of the month. Subsequent monthly invoices shall be sent to RTA no earlier than the 15th of the month in which the monthly charge covers.

B. No more than two invoices per month shall be sent to RTA.

5.8 **Prompt Payment**

We will include the following clause in each DOT-assisted prime contract:

The prime contractor agrees to pay each subcontractor under this prime contract for satisfactory performance of its contract no later than 15 days from the receipt of each payment the prime contractor receives from RTA. The prime contractor agrees further to return retainage payments to each subcontractor within 15 days after the subcontractor's work is satisfactorily completed. Any delay or postponement of payment from the above referenced time frame may occur only for good cause following written approval of the RTA. This clause applies to both DBE and non-DBE subcontractors.

When applicable, the RTA may use the following mechanisms to ensure prompt payment.

A. Language providing that prime contractors and subcontractors will use appropriate alternative dispute resolution mechanisms to resolve payment disputes.

B. Language providing that prime contractors will not be reimbursed for work performed by subcontractors until the prime contractor ensures that the subcontractors are paid promptly for work they have performed.

C. Enforcement of public funds liens law and use of a similar mechanism for nonpublic improvement projects.

D. Other applicable mechanisms as necessary.

5.9 **Covenant against Contingent Fees**

Contractor warrants that no person or selling agency has been employed or retained to solicit or secure this contract upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, except bona fide employees or bona fide established commercial or selling agencies maintained by Contractor for the purpose of securing business. For breach of violation of this warranty, RTA shall have the right to annul this contract without liability or, at its discretion, to deduct from the contract price or consideration, or otherwise recover, the full amount of such commission, percentage, brokerage or contingent fee.

5.10 **Indemnifications**
Contractor shall indemnify and save harmless RTA, its trustees, officers and employees from and against all loss, costs, liability, damage and expense whether direct, consequential or incidental, for personal injury and for property damage, such loss, costs, liability, damage and expense arising out of, or resulting in whole or in part, directly or indirectly, from work or operations under the contract but not limited to the acts, errors, omissions and negligence of Contractor's employees and agents, except to the extent of liability imposed due to RTA's own negligence.

5.11 **Laws of Ohio**

The rights and duties of the parties hereto shall be determined by the laws of the State of Ohio, and to that end the contract shall be construed and considered as a contract made and to be performed in the County of Montgomery, Ohio.

5.12 **State Industrial Compensation**

Contractor shall comply with the state law known as the Workers' Compensation Act, Chapter 4123, Ohio Revised Code as applicable, and shall pay into the State Insurance Fund the necessary premiums required by that Act to cover all employees furnishing the services purchased under the terms of this contract and under the control of Contractor, and shall relieve RTA from any costs due to accidents or other liabilities mentioned in said Act. If Contractor is a self-insurer under the Ohio Workers' Compensation Act, and duly authorized as such by the Industrial Commission of Ohio, it shall tender to RTA proof of such status. Contractor shall, from time to time upon request, tender to RTA a certificate evidencing its compliance with the Workers' Compensation Act.

5.13 **Independent Contractor**

Contractor shall be and remain an independent contractor with respect to all service performed hereunder and agrees to and does hereby accept full and exclusive liability for the payment of any and all contributions or taxes for Social Security, unemployment insurance, or old age retirement benefits, pensions, or annuities now or hereafter imposed under any state or federal law which are measured by the wages, salaries, or other remuneration paid under this contract, and further agrees to indemnify and save harmless RTA from any such contributions or taxes or liability thereof.

5.14 **Subcontracts Approval**

A. RTA shall have the right to approve or disapprove all subcontracts in accordance with the following provisions.

B. As used in this clause, the term "subcontract" includes subcontractors and major suppliers of material or services to the Contractor.

C. Contractor shall notify RTA reasonably in advance of entering into any subcontract if Contractor's procurement system has not been approved by RTA and if the subcontract:
(a) Is to be a cost-reimbursement, time and materials, or labor-hour contract that is estimated to involve an amount in excess of ten thousand dollars ($10,000) including any fee;

(b) Is expected to exceed one hundred thousand dollars ($100,000); or

(c) Is one of a number of subcontracts, under this contract, with a single subcontractor for the same or related supplies or services which, in the aggregate, are expected to exceed one hundred thousand dollars ($100,000).

(d) The advance notification required by the above shall include: A description of the supplies or services to be called for by the subcontract;

(e) Identification of the proposed subcontractor and an explanation of why and how the proposed subcontractor was selected including the competition obtained: The proposed subcontract price, together with Contractor's cost or price analysis thereof;

(f) The subcontractor's current, complete and accurate cost or pricing data and Certificate of Current Cost of Pricing Data, when such data and certificates are required by other provisions of this contract to be obtained from the subcontractor; Identification of the type of subcontract to be used; and

(g) A memorandum of negotiation which sets forth the principle elements of the subcontract price negotiations. A copy of this memorandum shall be retained in Contractor's file for use of RTA's reviewing authorities. The memorandum shall be in sufficient detail to reflect the most significant considerations controlling the establishment of initial or revised prices.

(h) Contractor shall not enter into any subcontract for which advance notification to RTA is required by this clause, without prior written consent of RTA, provided that RTA, in its discretion, may ratify in writing any subcontract. Such ratification shall constitute the consent of RTA required by this paragraph.

(i) Neither consent by RTA to any subcontract nor any provisions thereof nor approval of Contractor's procurement system shall be construed to be a determination of the acceptability of any subcontract price or of any amount paid under any subcontract or to relieve Contractor of any responsibility for performing this contract, unless such approval or consent specifically provides otherwise.

(j) Contractor agrees that no subcontract placed under this contract shall provide for payment on a cost plus a percentage-of-cost basis. Strict compliance with the provisions of this paragraph shall be a condition or any reimbursement by RTA of the costs of subcontracts or material purchased by Contractor. The provisions of
this clause in no way limit the provision of the clause entitled "Substitution of DBE Subcontractors".

5.15 Price Complete

The price quoted in any proposal submitted shall include all items of labor, materials, tools, equipment and other costs necessary to fully complete the services pursuant to this RFP. Any items omitted from the RFP which are clearly necessary for the services and their intended use shall be considered a portion of such services although not directly specified or called for in this RFP. No advantage shall be taken by the Proposer in the omission of any part or detail that makes the services complete.

5.16 Limited Liability

By virtue of the provisions of Section 306.31 of the Ohio Revised Code, RTA is a political subdivision of the State of Ohio, a body corporate with all the powers of a corporation. It is understood and agreed that only the corporate entity, Greater Dayton Regional Transit Authority, shall be liable hereunder.

5.17 Contract Duration

The duration or term of this contract shall be for until delivery and installation is complete. It is anticipated that the RTA will present this procurement to the RTA Board of Trustees for approval on October 2017. The contract will be awarded to one (1) firm with an effective date upon execution of the contract.

5.18 Option to Extend the Term of the Contract

The Greater Dayton Regional Transit Authority may extend the term of this contract by written notice to the Contractor within 30 days, provided that the RTA shall give the Contractor a preliminary written notice of its intent to extend at least 60 days before the contract expires. The preliminary notice does not commit the RTA to an extension. If the RTA exercises this option, the extended contract shall be considered to include this option provision. The total duration of this contract, including the exercise of any options under this clause, shall not exceed 60 months.

5.19 Entire Agreement

This contract contains the entire agreement between RTA and the Contractor and supersedes all prior negotiations, representations or agreements, either written or oral. Only a written instrument signed by both RTA and the Contractor may amend this contract.

5.20 Protest Procedures

A. The RTA will hear and consider a bona fide bid protest regarding its procurement actions in accordance with the following procedures. Due to the significantly limited role of FTA in bid protests, it is anticipated that the majority of all protests will be evaluated and the final decision rendered by RTA. The RTA intends to provide a thorough review of all bona fide bid protests. The RTA's primary concern is the timely procurement of needed capital equipment, supplies or services. It does not
intend to allow the filing of bid protests to unnecessarily delay the procurement process.

Parties are encouraged to exhaust all methods described in the bid documents for resolving a procurement issue before filing a formal bid protest with the RTA.

(a) RTA reserves the right to postpone bid openings/proposal due dates for its own convenience and to reject any and all bids/proposals received.

(b) Changes to the specifications/Scope of Work, will be made by addendum only and sent to all bidders/proposers of record.

(c) Prime bidders/proposers may make appointments to discuss the specifications/scope of work; however, this does not relieve proposers/bidders from submitting the written documentation required below.

(d) Protests may be filed during the pre-award, award or post-award phases of the procurement. Bidders/proposers may protest a bid/proposal award as soon as practical, but not later than five (5) business days following the receipt of proposed recommendation of award or receipt of rejection notification. All protests must be submitted in writing and be addressed to RTA’s Chief Executive Officer.

(e) The protest shall:

- Name the protester;
- Name the solicitation/contract (e.g., GD 10-XX);
- State the grounds of the protest; and
- State the relief sought.

(f) The protester shall submit with the protest any and all documents which he/she believes supports the protest. The protester shall state further if it wishes an informal conference in which to discuss the protest with the RTA.

(g) If any information is omitted or incomplete, the RTA will notify the protester in writing and the protester shall be required to provide such information within (3) business days if the protest is to be further considered.

(h) The Chief Executive Officer shall give consideration to all facts and issues involved. The RTA’s Manager of Procurement shall present all relevant facts and issues to the Chief Executive Officer. The Chief Executive Officer may, at his/her own discretion, form a committee which may include the general counsel and the department or division head who will benefit from the Contract, or any combination thereof.
(i) If an informal conference is requested, the Chief Executive Officer shall give the protester written notice of the place, location and time of the informal conference, which shall be within three (3) business days of such notice. Any information to be considered in the protest decision must be submitted in writing within twenty-four (24) hours after the conference.

(j) The Chief Executive Officer will return a written decision to the protester within ten (10) business days of the receipt of the protest including the submission of additional written information submitted to RTA under these rules as part of the protest process. The written response from the RTA shall address each substantive issue raised in the protest. Such decision is final unless a request for reconsideration is filed.

(k) If the protester is dissatisfied with the initial decision made by RTA, it may request in writing a reconsideration based on data which was not previously known, or because there has been an error of law or regulation. The request shall be delivered to the Chief Executive Officer within three (3) business days of receipt of the initial decision made by the Chief Executive Officer. The request shall state the reason(s) why the decision should be reconsidered and any information to support such a position. The Chief Executive Officer, in the manner provided above for an initial protest, shall consider and decide the request for reconsideration and shall issue a written decision to the protester within ten (10) business days. The protester will be notified of the decision and all substantive issues will be addressed that were raised in the request for reconsideration. Such a decision is final.

(l) FTA will only entertain a protest that alleges RTA has failed to have or adhere to a protest procedure. A protest to FTA must be filed in accordance with FTA Circular 4220.1F.

(m) RTA may only proceed with the procurement, when a protest is pending, when the conditions spelled out in FTA Circular 4220.1F have been met. RTA will not award prior to resolution of a protest, or open bids or proposals prior to resolution of a protest filed before bid opening/proposal due date, except as provided in FTA Circular 4220.1F.

(n) Potential bidders/proposers will be advised of a pending protest if made before award.

(o) Should the protester be dissatisfied with the decision rendered by the RTA, and the protest sent to the FTA has not been taken or relief granted thereunder, the protest would have to be taken to the appropriate state or local administrative or judicial authority.

(p) All protest documents shall be faxed, hand delivered or sent by overnight courier with return receipt requested to the RTA Chief Executive Officer or the protester.
and shall be deemed received on date delivered by fax, hand delivery, or overnight courier.

(q) Potential protesters and other interested parties include all interested bidders/proposers and any subcontractor or supplier with a substantial economic interest in a portion of the IFB/RFP.

(r) The FTA will be notified of any and all protests received. RTA will keep FTA informed of the status of the project.

5.21 Insurance

GREATER DAYTON REGIONAL TRANSIT AUTHORITY
CONTRACTOR INSURANCE REQUIREMENTS

The Contractor shall maintain, at its own expense, throughout the period of the Contract and any extensions thereof the following minimum insurance coverages of the types and in the amounts described below that are applicable to the scope of work being performed:

1. Workers Compensation and Employer’s Liability Insurance. Contractor must carry Workers’ Compensation Insurance (including occupational disease) in compliance with Workers' Compensation statutes of any applicable jurisdiction in which the Work is to be performed. For the attainment of Workers Compensation in monopolistic states, including Ohio, coverage must be secured through the state fund. If Contractor is a qualified self-insurer in compliance with the laws of the state, this is also acceptable. A certificate of compliance from the appropriate workers' compensation bureau or board must be provided with the certificate of insurance.

Contractor must also carry Employer’s Liability Insurance with minimum limits of $500,000 each accident; $500,000 for disease (per employee); and $500,000 for disease (policy limit). This policy must include Ohio "Stop Gap" coverage.

2. Commercial General Liability Insurance. Contractor must carry Commercial General Liability Insurance written on ISO form CG 00 01 10 01 (or its equivalent) with limits of $1,000,000 per occurrence and $2,000,000 in the aggregate. The general aggregate limit shall apply separately to this project. RTA (including its directors, officers, employees and volunteers) must be named as an additional insured on the CGL for liability arising out of the acts or omissions of the Contractor, including coverage for liability arising out of products and completed operations. The coverage afforded to RTA shall be primary to any other insurance carried by the RTA, and the RTA's coverage shall not contribute to any loss made pursuant to this coverage grant. Commercial General Liability coverage (including RTA's status as additional insured) shall be maintained for at least two years after completion of Contractor's work performed under this contract.

3. Commercial Auto Liability Insurance. Contractor shall carry Commercial Automobile Liability Insurance covering all owned, leased and non-owned vehicles used in connection with
the work to be performed under this contract, with limits of not less than $1,000,000 combined single limit per accident for bodily injury and property damage. RTA shall be afforded coverage under this policy for any liability arising out of the acts or omissions of Contractor.

4. **Excess/Umbrella Insurance.** Contractor shall carry Commercial Excess or Umbrella Liability Insurance over the Commercial General Liability, Employer's Liability and Commercial Automobile Liability policies in the amount of $2,000,000 combined single limit. The Excess/Umbrella policy is subject to all requirements of the underlying policies as set forth herein.

5. **Builders' Risk Insurance.** Contractor shall provide and maintain, during the progress of the work and until execution of the Certificate of Contract Completion, a Builder's Risk Insurance policy to cover all work in the course of construction including falsework, temporary buildings, scaffolding, and materials used in the construction process (including materials designated for the project but stored off site or in transit). The coverage shall equal the total completed value of the work and shall provide recovery at replacement cost.

   a. Such insurance shall be on a special cause of loss form, providing coverage on an open perils basis insuring against the direct physical loss of or damage to covered property, including but not limited to theft, vandalism, malicious mischief, earthquake, tornado, lightning, explosion, breakage of glass, collapse, water damage, and testing/startup.

   b. Coverage shall include coverage for "soft costs" (costs other than replacement of building materials) including, but not limited to, the reasonable extra costs of the architect/engineer and reasonable Contractor extension or acceleration costs. This coverage shall also include the reasonable extra costs of expediting temporary and permanent repairs to, or permanent replacement of, damaged property. This shall include overtime wages and the extra cost of express or other means for rapidly transporting materials and supplies necessary to the repair or replacement.

   c. The policy shall specifically permit and allow for partial occupancy by the owner prior to execution of the final Certification of Contract Completion, and coverage shall remain in effect until all punch list items are completed.

   d. The Builder's Risk deductible may not exceed $5,000. The Contractor or subcontractor experiencing any loss claimed under the Builder's Risk policy shall be responsible for that loss up to the amount of the deductible.

   e. If Contractor is involved solely in the installation of material and equipment and not in new building construction, the Contractor shall provide an Installation Floater policy in lieu of a Builder's Risk policy. The policy must comply with the provisions of this Paragraph 5.

6. **Pollution Liability Insurance.** If the Work involves environmental remediation, demolition or such other risks as the RTA reasonably determines create a pollution hazard, Contractor shall purchase and maintain pollution liability coverage of at least $1,000,000 per occurrence. This policy shall cover property damage, bodily injury and cleanup/pollution...
remediation costs caused by a pollution event and otherwise excluded under Contractor's Commercial General Liability policy. RTA shall be afforded protection under this policy as an additional insured, including coverage for claims arising out of Contractor's products and completed operations.

7. **Aircraft/Watercraft Liability Insurance.** If the Contractor is using aircraft or watercraft in performance of the Work under this contract, Contractor shall disclose this to RTA prior to contract execution. Contractor shall carry aircraft and/or watercraft liability insurance, including coverage for non-owned and hired craft, and RTA shall determine the appropriate limits which must be carried by Contractor.

8. **Railroad Protective Liability Insurance.** If the Work is being performed within 50 feet of a railroad, Contractor shall maintain Railroad Protective Liability insurance coverage with limits of $2,000,000 per occurrence and $6,000,000 in the aggregate. Contractor shall name RTA and the affected railroad as additional insured(s) on such policy for liability arising out of Work performed under this contract.

9. **Requirements common to all policies.**

   a. Contractor shall be solely responsible for reimbursing any deductible amount to the insurer, even if payment is being made on behalf of RTA as an additional insured on Contractor's policy. Any deductibles or self-insured retentions in excess of $5,000 must be disclosed and approved in writing by RTA.

   b. Contractor waives all rights of recovery it may otherwise have against RTA including its directors, officers, employees and volunteers) to the extent these damages are covered by any of Contractor’s insurance policies as required in this contract.

   c. All insurance required hereunder shall be placed with insurers that have a minimum A.M. Best’s rating of A-/X and shall be licensed, admitted insurers authorized to do business in the state of Ohio.

   d. A certificate(s) of insurance showing that Contractor’s insurance coverages are in compliance with the insurance requirements set forth below must be completed by the Contractor’s insurance agent, broker, or insurance company after the contract has been awarded. All certificates (other than Ohio workers' compensation) shall provide for thirty (30) days written notice to RTA prior to cancellation or non-renewal of any insurance referred to therein. The certificate shall reference RTA's status as an additional insured with primary/noncontributory coverage under both the General Liability and Auto policies.

   e. Failure of RTA to certificate(s) or other evidence of full compliance with these insurance requirements (or failure of RTA to identify and/or object to a deficiency in the certificate(s) that is/are provided by Contractor) shall not be construed as a waiver of Contractor’s obligations to maintain such insurance. RTA shall have the right, but not the obligation, to prohibit Contractor from beginning performance under this contract until such certificates or other evidence that insurance has been placed in complete compliance with the
above insurance requirements is received and approved by RTA. Contractor shall provide certified copies of all insurance policies required above within ten (10) days of written request from RTA.

f. By requiring insurance herein, RTA does not represent that coverage and limits will necessarily be adequate to protect Contractor, and such coverage limits shall not be deemed as a limitation on Contractor’s liability under the indemnities granted to RTA.

g. Any subcontractors engaged by Contractor to perform the Work shall comply with these insurance and indemnification provisions and shall provide primary/noncontributory coverage to RTA as set forth herein.

5.22 Assignability

The terms and provisions of the Contract Documents shall be binding upon RTA and the Contractor and their respective partners, successors, heirs, executors, administrators, assigns and legal representatives. The rights and obligations of the Contractor under the Contract may not be transferred, assigned, sublet, mortgaged, pledged or otherwise disposed of or encumbered in any way. The Contractor may subcontract a portion of its obligations to other firms or parties but only after having obtained the written approval by RTA of the subcontractor, which approval shall not be unreasonably withheld. RTA may assign its rights and obligations under the Contract to any successor to the rights and functions of RTA or to any governmental agency to the extent required by applicable laws and governmental regulations or to the extent RTA deems necessary or advisable under the circumstances.

5.23 Safety

A. The Contractor should be aware that RTA is a constantly operating organization, with activity 24 hours a day, seven days a week.

B. It is the intention of the RTA to protect RTA employees, customers and property from harm due to Contractor activity, and to reduce RTA’s liability exposure limits regarding safety and environmental infractions.

C. In addition, the RTA expects all contractors and sub-contractors to comply with and abide with any and all applicable regulatory standards.

D. Some special and unique safety and environmental concerns found at RTA and incumbent upon the contractor and sub-contractor include:

1. RTA is a 24-hour per day operation.

2. Multiple sized vehicles move about the interior and exterior of most buildings, 24 hours per day. Please be advised that set traffic patterns have been established and must be followed.
3. Operators of all equipment are expected to be certified to operate appropriate equipment.

4. Restrictive rules apply to running of engines inside all buildings.

5. Restrictive storm water pollution rules apply.

6. Material Safety Data Sheets must be provided for all materials used. Specific notification is required if a product to be used on the job has been classified as an “Extremely Hazardous Material.”

7. Building evacuation procedures.

8. Fire safety and prevention procedures.

10. Hazardous material safety.

5.24 Compliance with RTA Security Measures

All contractors are required to display an identification badge supplied by RTA while on RTA premises. Badges must be worn where they can be seen at all times. This requirement applies to every employee of all contractors and/or subcontractors. All contractors’ employees are also required to wear clothing which identifies the company for which they work (i.e., uniform, hard hat, jacket, etc.). Badges must be obtained from the Project Manager and must be returned upon completion of the project. A fee will be charged for any badges that are lost or not returned, and will be deducted from the final project invoice.

5.25 Trade Secret Notification

Under Ohio Law, a proposal document may be a public record unless it meets an exception under the Public Records Law. One such exception is for trade secrets. Trade secrets must be treated with confidentiality. However, the proposer must notify the RTA in all of their proposal documents as to which portions of their proposal documents constitute trade secrets and are to be treated as confidential. As proposer, it is your responsibility to mark those parts of the proposal which you wish to have treated as confidential. While this does not assure that these portions of the document will constitute a trade secret and be exempt from public records requests under Ohio Law, in the absence of notice from you to us that those documents are to be treated as trade secrets and to be held confidential, they will be made available to the public upon a public records request unless another exception applies to exempt them from disclosure.

5.26 Time for Performance

Time is of the essence in the performance of this contract. The Contractor shall fully perform all of its obligations, including, without limitation, the satisfactory performance of all work to be done, by no later than the delivery or completion date set forth in the Proposal Document. The Contractor and the RTA recognize it will be difficult to compute the RTA’s damage resulting from unexcused delays in the performance of the contract, particularly in view of the fact that the RTA is not a profit-making entity. Accordingly, it is agreed that the RTA will have the right to recover liquidated damages
for delay in the completion of this contract beyond the date specified and not subject to the contract excusable delays clause to be computed as follows: \( \$0 \). Costs caused by delays or defective construction shall be borne by the party responsible thereafter.

Alternatively, if the delivery or performance is so delayed, the RTA may terminate the contract in whole or in part under the Termination for Cause clause in the contract document and in that event, the Contractor shall be liable for fixed, agreed, liquidated damages accruing until the time the RTA may reasonably obtain delivery or performance of similar supplies or services.

The RTA may cancel the unfilled portion of the contract for default; purchase substitute requirements elsewhere; and recover from the Contractor any increased costs thereby incurred, together with all resulting incidental and consequential damages.

5.27 Changes in the Work/Change Orders

Oral changes are not permitted. No change in the contract shall be made unless the RTA gives prior written approval therefore. The Contractor shall be liable for all costs resulting from, and/or for satisfactorily correcting any change in the work not authorized by the RTA in writing.

The Contractor shall submit to the RTA a detailed pricing and schedule proposal for the work to be performed under the change order. The proposal may be accepted by the RTA or may be modified by negotiations between the Contractor and RTA. A change order amendment shall be executed in writing by both parties. Disagreements that cannot be resolved within negotiations shall be resolved in accordance with the contract “Disputes” clause. Regardless of any disputes, the Contractor shall proceed with the work ordered, provided the Contractor has obtained the prior concurrence of RTA.

5.28 Late Submissions, Modifications, and Withdrawals of Proposals

Any proposal received at the office designated in the solicitation after the exact time specified for receipt will not be considered.

The exact time (also referred to as official time) is the date and time the proposal is actually received in the RTA’s Procurement Department.

The only acceptable evidence to establish the time of receipt at the RTA office is the time/date stamp of the RTA on the proposal wrapper or other documentary evidence of receipt maintained by the RTA.

Proposals may be withdrawn by written or telegraphic request received from proposers prior to the time set for the receipt of proposals. Proposals may be withdrawn in person by a proposer or an authorized representative, if the representative’s identity is made known and the representative signs a receipt for the proposal before award.

5.29 Confidentiality of Proposals

During the evaluation, negotiation and selection process, evaluation committee members may not disclose any information in regards to the procurement. Except for the identity and background of the successful proposer and the contract price, all information
provided by proposers remains confidential after the conclusion of the process, to the extent permitted by law.

The RTA will exempt from disclosure of proprietary information, trade secrets and confidential commercial and financial information submitted in the proposal. Any such proprietary information, trade secrets or confidential commercial or financial information, which the proposer believes should be exempted from disclosure, shall be specifically identified and marked as such. Blanket type identification by designating whole pages or sections as containing proprietary information, trade secrets or confidential commercial or financial information will not assure confidentiality. The specific proprietary information, trade secrets or confidential commercial and financial information must be clearly identified as such.

5.30 Duty to Inform

If at any time during the performance of this contract, the Contractor becomes aware of actual or potential problems, fault defect in the project or any nonconformance with any contract document, Federal, State or local law, rule or regulation, the Contractor shall give immediate notice thereof to the RTA’s Procurement Rep.

5.31 Drug and Alcohol Rules

The Greater Dayton Regional Transit Authority (RTA) is required to comply with the Federal Transit Administration’s drug and alcohol rule, 49 CFR Part 655. This rule requires RTA to ensure that any entity performing a safety-sensitive function on our behalf implement a drug and alcohol program which complies with the following clause:

“The contractor agrees to establish and implement a drug and alcohol testing program that complies with 40 CFR Part 655, produce any documentation necessary to establish its compliance with Part 655, and permit any authorized representative of the United States Department of Transportation or its operating administrations, the State of Ohio, or Greater Dayton Regional Transit Authority to inspect the facilities and records associated with the implementation of the drug and alcohol testing program as required under 49 CFR Part 655 and review the testing process. The contractor agrees further to certify annually its compliance, with Parts 655.”

5.32 Parts

Only standard parts of units that conform in material, design and workmanship to the best procedure known in the industry shall be used. No reconditioned or obsolete parts shall be used. All parts shall be identical and interchangeable in its class.
PART II
SCOPE OF WORK
PART II - SCOPE OF WORK

Bus Wash Systems

**General Information**

Greater Dayton Regional Transit Authority (RTA) is seeking proposals for replacement of two (2) bus wash systems at 600 Longworth Street and one (1) system at 601 Longworth Street. Currently all wash systems are drive-through systems and are not the same technically nor by the same supplier. Systems will include all new water management components ranging from pumps, reclaim, tanks, controls, plumbing and all other components necessary for a high quality wash system. System(s) must be capable of washing RTA’s fleet each night if required. Due to floor space, restrictions and bus wash cycle time; RTA is requesting drive-through systems.

**Wash System Requirements**

These specifications describe an industrial quality, drive-through automatic vehicle wash system intended for a high volume of vehicles per day. This vehicle wash must have a minimum 15-year working life with minimum service, repairs and maintenance based upon the anticipated number of vehicles. No proprietary PLC logic will be permitted for this project.

In order to ensure minimum downtime and operational costs, the vehicle wash design must utilize as many components as possible that are readily available in the general marketplace, without being dependent upon a single supplier for replacement parts and/or components.

**Wash System Performance**

Starting, stopping and operation of the wash system must be completely automatic and must not require an attendant other than for routine inspection and maintenance. The wash system shall thoroughly wash the top, sides, fronts and rears of vehicles, driven through the systems at a maximum rate of x.x fps. The vehicle actuates all wash operations automatically while progressing continuously (without stopping) at a uniform speed through each washing stage. No manual equipment adjustment shall be required and the equipment shall adapt automatically with electrical or pneumatic controls to variations in widths and heights of all intended vehicles in RTA’s fleet.

If the automatic washing operation system fails, the washing system will include manual controls to allow an attendant to reset all motions to the “home” position, restart the cycle from the fault location, or reject the wash cycle. Allow for independent component brush testing when necessary.

The supplier shall provide all labor, material, and installation hardware pertaining to the equipment.
The design of the bus wash system is such that the wash can accommodate buses driven through one behind the other with no more than x feet of distance between the rear of the leading bus, the front of the following bus, and accommodating RTA’s model mix of buses and a lot size of one.

**Structural Framework of Wash System**

The working components of the vehicle wash system are to be in a framework of Hot-Dipped galvanized or steel tube frame. If painted per RTA’s direction, provide a primer coat. *Supplier will recommend the best long-term structure.*

All structural framework must be designed such to be free standing and secured to the floor with the appropriate lags and NOT suspended from the ceiling.

All frames will be welded and have continuous seams. No Spot Welds.

Any weld residue will be removed (grind) prior to painting

All welded joints should be of professional quality.

**Pre-Wetting Detergent Spray Unit**

System will supply optimum detergent penetration before the brush wash cycle begins. Controls including detergent metering pump and all associated hardware for exceptional cleaning.

The design and manufacturing of the Structure and Arch is capable of handling RTA’s fleet size and daily requirements.

All piping must be of appropriate diameter size and with adequate nozzles to accommodate RTA’s fleet size and daily requirements.

Detergent Pump will be stainless steel were applicable and positive displacement. The detergent storage tank will have appropriate float sensor and controls.

**Front, Side, and Rear Cleaning Unit**

Thoroughly washing RTA’s fleet refers to the Top, Sides, Front, Undercarriage, Wheels, and Rear. Rear cleaning does not apply to the Electric Trolley. It is the supplier’s responsibility to size the High Pressure pumps to clean the bus.

The brushes shall be of sufficient length to accommodate RTA’s fleet size ranging from the largest to the smallest.

*Hydraulic drive motors are **NOT** permitted due to the high-energy usage, potential environmental problems due to leakage, and maintenance costs. Each brush shall be driven by a single electric motor rated at 480vac, 3-phase, 60 HZ. The brush motors must be designed for use in a water intensive environment and shall be rated at a minimum of five (5) HP.*
The brush shaft shall attach to the transmission of the drive motor by means of a flexible coupling capable of taking angular misalignment and end-float, dampening vibration, and eliminating problems of parallel misalignment without adjustment or regular maintenance servicing. The flexible coupling shall be a super-flex spring (or equivalent), of universal construction and one that has been in the field and in use for the past five (5) years.

No pulley, counter-weight, or other type of device shall be required to cause a brush arm to wash vehicles or move the brush arms into their wash position. Independent cylinders directly control all motions. No portion of the brush support arm (or any other wash component) shall extend down into the area of the washer where it might under any circumstance contact a vehicle.

In the event of an E-Stop during a wash cycle, any pneumatic operated vertical or angled motions must maintain their position and not “bleed” downward and contact any part of RTA’s fleet. Rod-Locks located on the cylinder will be required under these conditions.

Each brush will have detergent-injected water by its own spray pipe. Each spray pipe should be no less than x.x diameter with the appropriate number of brass spray nozzles to lubricate the brush with enough soapy water to properly wash all vehicles and keep the brush clean.

The Roof-Top-Mop assemblies must be capable of handling RTA’s fleet and be able to lift, move, pivot or etc. out of the way based on the vehicle coming into the wash system. This should be automatic and not require any manual intervention to achieve this result.

**Final Rinse Spray Unit (Fresh Water)**

Water spray supporting structure is free standing, manufactured out of Hot Dipped galvanized or tubular steel, and properly welded to a base plate for installing level/lags. This will be an arch unit for a complete rinse of RTA’s fleet.

The spray pipes are located on the supporting structure. Each spray pipe will be no less than x.x diameter and brass spray nozzles will be strategically located for maximum results. The volume of water passing through the final spray rinse unit shall be adequate to rinse all vehicles when they pass through the arches at the prescribed rate of speed.

**General Requirements**

1) RTA’s fleet size is as follows: (Numbers may fluctuate)
   a. 96, 40 Foot Diesels
   b. 40, 40 Foot Diesels/Hybrids
   c. 4, 30 Foot Diesels/Hybrids
   d. 33, Electric Trolleys
   e. 4, NexGen Electric Trolleys
   f. 75, Paratransit
2) Each system must be capable of washing RTA’s model mix as described in the aforementioned chart.

3) Capability of turning off the brushes, just running the pre-rinse, high-pressure soap, rinse, and dryers.

4) Each system must be able to handle any assortment of model mix. (For example, a 40 footer, 30 footer, and Paratransit.)

5) Each system must have control interlocks in order to accommodate the model mix automatically.

6) A water softener for all city water supplied to the wash system.

7) A reclaim water system with filters, strainers, centrifugal strainers, floats, sludge tank, and all required components for proper operation.

8) Softened water should be designed to supply the “low-pressure items” – brushes (or any other soap related items) and the final rinse. The reclaim water system is to supply water to the “high pressure items” which includes pre-rinse arch, wheel spinners, undercarriage wash, roof mop, and high-pressure side wash.

9) Independent water control for each washer.

10) Wheel and undercarriage wash with the ability to turn off and on independently by use of electric solenoid valve via the Human Machine Interface (HMI).

11) Soap metering devices - injection pump style for each washer.

12) The ability to use any type of liquid commercial bus/truck wash soap and a recommended specification for bus/truck wash soap.

13) Replacement brush availability by OEM or aftermarket vendor. An approved list of vendors should be included.

14) The ability to do remote troubleshooting and/or program via internet by the contractor.
15) Tire guides should be four 4-6 inch diameter tubular steel and installed the full length of the wash system. Guide width must accommodate all of RTA’s fleet and have a generous entrance angle as not to damage tires. Ends of tire guides must be professionally manufactured and not rough saw cut or open tubing.

16) All nozzles are a replacement item and no special hand tools are required for maintenance.

17) All buses must have the roof washed
   a. Electric Trolleys are exempt of the top-dead-center of the bus. However, top brushes must be on an angle to wash all areas of the roof except where the trolley poles are located.

18) All buses must have the front washed top to bottom

19) All buses must have the back of the bus washed top to bottom (Except Electric Trolleys and NexGen buses)

20) All buses must have (to the extent possible) all excess water removed via dryers located at the exit.

21) All components and structure supplied are designed to work in a water intensive environment 24/7 and rust free.

22) Contractor is fully responsible for the removal of the existing system and disposal per local regulations.

23) Contractor is fully responsible for all building permits, proper documentation, and is required to be in place prior to starting the removal of the existing system.

24) Contractor is fully responsible for ANY modifications to the building and/or utilities required for complete installation of the bus wash.

25) Contractor is fully responsible for all fabrication, construction, plumbing, electrical work related to the installation of the reclaim, and fresh water system.

26) Contractor is fully responsible for all material and labor associated with the guide rail replacement including skid plates.

27) All components for the wash systems should be readily available for (15) years after final acceptance.

28) Contractor shall provide at no additional cost to RTA the following:
   a. All architectural, engineering and equipment drawings for the entire scope of the project. These include all Assembly drawings, detail drawings, pneumatic drawings, electrical drawings, AutoCAD 2016 .dwg files, any SolidWorks
Models, engineering calculations, up-to-date PLC program with comments, all HMI templates, and any other pertinent drawings or etc. that are associated with this order. (As Built)

b. Two (2) complete sets of equipment operating, maintenance, and troubleshooting manuals per system. Electronic set to be provided as well.

c. All manuals for purchased items included in the wash system.

d. Two (2) complete sets of final system drawings, electrical schematics, plumbing, pneumatic drawings, and etc. (Per system and as built updates)

e. All components listed with Manufacturer’s name, lead-time for component in weeks, and contact information.

f. Provide three (3) sets of any special tooling (if applicable) required for equipment maintenance. (Special wrenches, spanners, alignment tooling, setup fixtures, jigs, or etc.)

g. List and pricing for the most common replacement parts/components as well as a recommended list of spare parts RTA should keep in stock. This is required four (4) weeks prior to delivery.

h. Wash system training for RTA’s operators (Curriculum must be submitted to RTA prior to the training) Validation will be required to ensure the operators have comprehended the training supplied with signatures.

i. Wash system training for RTA’s maintenance personnel (Curriculum must be submitted to RTA prior to the training) Validation will be required to ensure the maintenance personnel have comprehended the training supplied with signatures.

**Electrical**

Pre-wired, 480 vac, 3 phase, 4-wire, 60-hertz electrical control panels are to be provided for the equipment. Each control enclosure shall contain a knife main disconnect switch with appropriate Lock Out capabilities, switches, relays, solenoids, breakers, and all necessary hardware to provide complete automatic operation of the system. The control panel must be UL approved. Each motor shall be waterproof and motor circuits will contain overload protection in all three (3) phases.

All electric controls mounted for easy floor-level servicing and access shall operate on a maximum of 24-volts dc where possible for safety reasons.

The electrical back panel will have adequate space for future expansion mounted in a non-metallic NEMA enclosure with hinged door. RTA will determine the location of the
control panel due to safety and line-of-sight control. All motion control is via the HMI. Non-UL approved components are NOT permitted.

All automatic controls and hardware requiring regular maintenance shall be located in such a manner as to allow floor-level servicing

**Controls Specifics**

1) HMI located inside control cabinet door and a 12-inch screen is preferred. However, RTA will consider the supplier’s standard unit and advise accordingly. In the event the HMI cannot be mounted in the enclosure door, a Strong-Arm enclosure will be required.

2) All systems are independent

3) Control Panels will be positioned so line-of-site is available for safe startup (Locations to be determined by RTA)

4) Slow Start Up pneumatic valve on each system at main air dump.

5) All electric panels will have 10%-20% spare space inside cabinet.

6) All wiring inside panels will be properly dressed in white Panduit (or approved equal) and labeled correctly.

7) All electrical tags will be riveted in place; no adhesive tape.

8) All tags will be engraved on white with black lettering.

9) All tags must include the I/O number.

10) All wiring must be in proper conduit or wire way. If wire way is required, all high voltage and instrumentation wiring must be separated via a divider.

11) Wire way to be painted RTA (#TBD).

12) No STO cord longer than 3 feet.

13) All cords from “J” boxes must have strain relieves.

14) Circuit breakers instead of fuses; below main discount fuses.

15) Proper Electrical labels on the main panel, i.e. full amp load and voltage.

16) Electrical enclosure and J boxes to be painted RTA (#TBD).

17) Inside door of Electrical enclosure will be painted Alert Orange.
18) Pocket will be on the inside of the enclosure to accommodate a complete set of control drawings.

19) Other than the enclosure door, inside of enclosure will be white.

20) Inside of the Electrical Enclosure will have proper lighting for maintenance.

21) All motors will be 480 vac, 3 Phase, 60 hertz.

22) All motor fan guards will have an arrow indicating the direction of rotation.

23) A revolving warning light will indicate the initiating the cycle start button along with an audible alarm suitable for an industrial environment. The revolving light and alarm will be activated for 3-5 seconds prior to the start on an automatic cycle. (The duration must be adjustable).

24) No electrical components mounted on side panels of the enclosure.

25) Weidmuller terminals (or approved equal) will be applied to the end of wires for good conductivity under the terminal strip.

26) Main Electric Enclosure will have a retractable shelf to support a computer.

27) Side of Main Electric Enclosure to have a 120 vac outlet with cover.

28) Side of Main Electric Enclosure to have a data outlet with cover.

29) E-Stop located in the Main Enclosure and multiple E-Stops strategically located throughout the system for safety; RTA will determine location.

30) All system faults will trigger the revolving system light.

31) At a minimum, RTA requires an Operating, Maintenance, Manual Motion, Log, and Diagnostic screen. (Supplier to advise RTA of standard screens).

32) Diagnostic screen must indicate the fault condition and location.

33) Daily log of number of washes will be stored, faults, etc. RTA requires a minimum of 12 months storage of this data. Data should be capable of download via RTA’s internal software.

34) Screens to have different level of security pass codes. (Determined by RTA)

35) All main enclosures will have the proper tags or labels per electrical code and local specifications.

36) Filter Regulator and Lubricator (FRL) will be required per system.

37) All motions must have manual control via the HMI.
38) “Home” position of the system will be such that buses can bypass through the system and not interfere with any part of the wash system.

**Mechanical & Pneumatic**

1) All pneumatic components must be able to operate efficiently based on RTA’s supplied air pressure.

2) Each pneumatic cylinder will have a flow control mounted on the port to control smooth motion.

3) Each pneumatic cylinder will have a rod aligner to prevent misalignment and damage to the cylinder.

4) Proximity sensors will be added on both ends of the cylinder’s stroke.

5) Proximity sensors will not be mounted in a slotted hole.

6) All photo eye sensors and receivers will be mounted in a securely structure to prevent alignment issues and nuisance faults.

7) All proximity sensors will be 24-vdc and unshielded.

8) All pneumatic tubing properly festooned for automation.

9) For excessively long pneumatic strokes, all wires and pneumatic tubes must be installed in a proper sized Cat-Track.

10) All frame work to be painted RTA (#TBD).

11) Tire Guides tubes are to be powder coated, painted, or galvanized. Supplier to advise RTA on the best long-term coating.

12) All pneumatic cylinders will be Festo or approved equal.

13) All pneumatic cylinders will have cushions on both ends of the stroke.

14) All pneumatic valves will be Festo (or approved equal) and mounted in an enclosure.

15) All fasteners will be English and the coating should be suitable for a harsh water environment. (Supplier to advise RTA on the fasteners).

16) All fasteners will be Socket Head Cap Screws (SHCS) with flat and lock washers.

17) All components requiring grease will have the proper grease zerks and plumbed to a central manifold. All manifolds are mounted 48 inches from the floor. Due to the size of the system, multiply manifolds may be required. (RTA to determine the number and locations).
18) Trunnion mounted cylinders (Rear) will have bearings and grease fittings.

19) All vertical piping will have a ball valve located on the lowest point for maintenance.

20) Check Valves on all water supply lines.

21) All motors will be painted RTA (#TBD).

22) All fan guards on motors will be painted Safety Yellow.

**Project Management**

The selected supplier will appoint a Project Manager from their company that is highly qualified to deliver the system in scope and per RTA’s schedule requirements. In the rare event that the supplier’s Project Manager is not suitable for this project, RTA reserves the right to disqualify the appointed Project Manager and have the supplier select a new one that is more conducive for our needs.

RTA will require weekly progress reports, which are due each Monday at 12:00 Noon starting two (2) weeks after receipt of Notice to Proceed. RTA will supply the Progress Report.

RTA will require a weekly (at a minimum) conference call with the contractor to review any issues that are on the running open items list.

RTA may require a monthly Executive meeting where the contractor presents the status of the project to RTA’s management.

RTA’s Project Manager (or designee) is the single point contact for RTA for all commercial, technical, and financial issues. Other individuals suggesting deviations from the SOW without written permission from RTA’s Project Manager and subsequently executed by the supplier is at your own risk. No deviations from the Purchased Scope of Work (SOW) will be permitted unless RTA’s Project Manager authorizes a formal Change Order.

Since RTA will be purchasing three (3) bus wash systems, we will need three (3) unique project numbers for identification.

A Change Order is required for all financial, schedule, or scope changes. Change Orders will be numbered with project number GD 17-15 and RTA’s building suffix. For example, (GD 17-15-600-1-001) (GD 17-15-600-2-001), and (GD 17-15-601-1-001). GD 17-15 is your project number, 600 or 601 is our building location, -1 or -2 is for wash bay 1 or wash bay 2, and 001 will be the first Change Order for that system and continue in series. The Change Order process will be formalized upon selection of the contractor.

RTA must approve all drawings prior to any manufacturing that includes mechanical, electrical, and pneumatic.
RTA requires an Electro-Mechanical full assembly drawing (Plan View) submitted for approval. This drawing will include the following at a minimum:

a) Location of Electrical enclosure  
b) Location of the Pneumatic enclosure  
c) Location of Strong-Arm with HMI (If applicable)  
d) Location of Reclaim area and associated pumps  
e) Location of tanks  
f) Wire-way runs (if applicable)  
g) Pneumatic Headers  
h) Grease Headers  
i) Supply Water Headers  
j) Location of the (2) required E-Stops (This doesn’t include the E-Stop in the Enclosure)

RTA requires seven (7) business days to review the approval drawings.

RTA may require an FMEA (Failure Mode Equipment Analysis) meeting with the selected supplier to review failure modes and required corrective actions to ensure safety.

Supplier’s Project Manager will direct all employees and their associated contractors. RTA is responsible to direct contractors.

In the event of a schedule slip that puts the deliver in jeopardy, RTA may require a formal Recovery Plan from the supplier. The plan will include corrective actions to navigate the project back on schedule, adequate resource plan, hours scheduled per week, daily briefings on progress, possible RTA personnel onsite for validation, and senior management involved to ensure that RTA is successful.

During installation, RTA will require a daily meeting with the supplier to track progress and remove any constraints that may develop. RTA will determine time, location, and frequency. All contractors during installation are required to keep their areas clean, which includes removing trash, debris, lunch bags, and building supplies.

**QUALITY ASSURANCE**

**Experience**

To insure the RTA receives the highest quality equipment available, the wash manufacturer shall have a minimum of ten (10) years’ experience manufacturing the equipment as specified herein. The wash manufacturer shall also provide experienced supervisory personnel specializing in the installation of wash and water recovery systems and equipment with at least ten (10) years’ experience in the type of work indicated and specified. In an effort to maximize continuity, the selected contractor will design, manufacture, and install the system(s).

**References**

Suppliers of the specified wash equipment must supply the names and contact numbers of at least five (5) Transit Authorities in the United States where the specified equipment
has been commissioned and in satisfactory use for at least five (5) years. The names of the contacts provided, must be the person(s) in charge of and familiar with the operation and maintenance of the wash equipment. RTA may contact these locations at our convenience or make site visits. Based on information obtained, as well as from the detailed submittal information required, RTA will determine, at RTA’s sole discretion, the suitability of the proposed equipment.

**Warranty**

The manufacturer’s standard warranty shall be five (5) years on the structural framework, two (2) years on all pumps and motors, and two (2) years all other components, electrical and plumbing systems. Warranty shall start at project acceptance and completion of all open items. Warranty will cover all parts, materials, and labor. A local manufacturer’s representative (or supplier) shall perform all warranty work at the project site that has the capability of responding to emergencies within twenty-four (24) hours. The warranty shall consist of replacement and installation of defective assemblies or parts without cost to the RTA.

All Drawings are to be on sheets 24" x 36" (D Size) and in triplicate. Manufacturer’s literature, brochures, catalog cuts sheets, and other pertinent printed matter or data shall be submitted in triplicate or as directed by RTA.

**Electrical**

All field electrical work, including conduit, wiring runs, interconnections between all wash system components, and power to the wash control panel is the responsibility of the supplier per local code and permits.

**Plumbing and Mechanical**

All field plumbing and mechanical work including plumbing supplies and shut off valves required between all wash systems components is the responsibility of the supplier per local code and permits. RTA will require strategically placed shut off valves for maintenance.

**Scope of Specifications**

**Entrance Lights**

A set of lights will be located at the entrance of each bush wash. The lighting system to be a traffic signal unit consisting of a RED and Green lights. RED indicates that the current bus is in process and the back of the bus is being cleaned. Green indicates the following bus can proceed into the wash bay.

**Touchless Activation System**
24-vdc diffuse eye sensors shall activate the various components of the wash. The diffuse electronic eyes must be capable of withstanding direct water spray and not influenced by water droplets. RTA does not approve Whisker type of switches in this wash environment. Each sensor must be located in a secure housing to eliminate accidental misalignments. All eyes are to have a sending and receiver. No reflective type of sensors.

**Skid Plates**

The entrance of the wash system is angled in a V-shape to allow some off center tolerance of the approaching vehicle. Stainless steel skid plates will be provided and installed at the proper entrance section of the tire guide. These plates are secured to the concrete floor.

**Rear of Bus Alert System**

RTA requires a position alert system to enhance the cleaning of the rear of the bus. An amber LED signal light will alert the driver to pause or reduce speed while the rear of the vehicle is being cleaned.

**Speed Control System**

The speed control system shall consist of (x) detectors, a control panel consisting of a power supply, PLC, appropriate relays, and an operator warning signal system both visual and audio. The visual signal system will be a waterproof green, amber and red light system. The amber light is to indicate excessive speed over x.x fps. If the speed is in excess of x.x fps, the red light will illuminate and the horn will sound. Speed control settings must be adjustable and only assessable to RTA’s maintenance personnel. *(RTA is open to all speed control type of controls as long as they adhere to cleaning the fleet to excellent standards)*.

The speed control system shall utilize the appropriate photoelectric sensors that do not require physical contact with the bus. The sensors are positioned parallel to the path of the bus as it passes through the wash system at convenient intervals. A sensor transmits a signal to the PLC when it detects the front of the bus and subsequently the GREEN traffic light is illuminated.

Similarly, as each of the next sensors detects the front of the bus, they also send a signal to the PLC. The PLC is programmed to calculate the time that it takes the bus to proceed from sensor to sensor and consequently the speed of the bus. Vehicle speed remaining at or below x.x fps the signal light will remain GREEN.

If speed exceeds x.x fps but remains below x.x fps, the signal light will switch to AMBER. As long as the speed remains in this range, the light will remain AMBER. If the speed exceeds x.x fps, the signal will switch to RED, and an audible alarm will sound. When the bus proceeds and exits the system, the speed control will automatically reset three seconds after the rear of the bus leaves the last sensor. *RED will shut down the bus wash system and require the driver to exit the bus wash, go back around, and re-wash the bus at the design speed specification.*
Final Acceptance

After installation is complete, the Contractor shall demonstrate to RTA that the wash system operates perfectly in accordance with the SOW and meaning of the drawings.

Final acceptance of each wash system will include an automatic cycle of each of the following:

1) (5) 30 Foot Diesels/Hybrids
2) (5) 40 Foot Diesels/Hybrids
3) (5) 40 Foot Diesels
4) (5) Electric Trolleys
5) (5) NexGen Trolleys
6) (5) Paratransit
7) (5) Non-Revenue vehicles
8) (5) Tests of a different Model Mix.
9) Hitting the E-stop at the entrance of a wash, during a wash, during the final rinse, and during the blow off cycle. Recovery from the E-stops must be graceful and via HMI. Test is for each vehicle type.
10) Manual motions, via HMI
11) Wash cycle counter is accurate
12) All faults are indicated on HMI

Training

The manufacturer will submit a training schedule/curriculum to RTA for approval and shall conduct a training program. The training program will be conducted on the actual equipment supplied under this specification. The training model will be developed to train RTA's personnel who will be using and maintaining the equipment so that when the program is complete they will be able to correctly operate and maintain the wash system.

Maintenance

Maintenance Manuals

Two (2) sets of repair, maintenance, and parts manuals shall be supplied with the wash system that covers all components, systems and subsystems. RTA requires the documents to be in electronic format as well.

RTA will be responsible for routine maintenance and service, as outlined in the maintenance manuals.
Installation

a. Installation shall be in strict accordance with approved shop drawings and contractor installation instructions at locations indicated in drawings.

b. Work shall be coordinated with other trades to ensure proper equipment interface with the utilities. Structural design shall be coordinated with the supplier of the wash system to assure all slab and foundation drawings dimensions are acceptable to the equipment.

c. Bus wash operations will be connected to the new water reclamation system. The contractor shall coordinate with all utility requirements as needed per installation instructions.

d. The wash system, all of its components, accessories, shall be constructed, and installed in accordance with the approved drawings. Only skilled technicians with the proper experience are permitted for the installation.

e. Upon completion of installation, contractor shall demonstrate to RTA that the wash system and water recycle system operates perfectly in accordance with the intent and meaning of the drawings, specifications, manufacturer’s specifications and recommendations.

1) Timing

Due to the logistics of installing the systems, the selected supplier may have to work days, nights, off hours, or weekends. Bus wash in building 601 will be installed first. Once the system has been commissioned, RTA will shut down both bus wash systems in building 600. Contractors must include their best delivery in the quote package. All quotes are valid for 120 days after submittal.

2) Liability

The supplier winning the contract will be responsible for all but not limited to on the job accidents, injuries, equipment damage, and RTA property damage. RTA will be held harmless on all circumstances pertaining to this project.

3) Terms

Upon completion of the project, adhering to the required specifications, receipt of all as built drawings, receipt of as built PLC program with comments, recommended spares parts list, successful training, SolidWorks Models, and AutoCAD 2016 .dwg files RTA will release the final payment.
40 Foot Diesel/Hybrid
Electric Trolley
### Electric Trolley

**Service Bulletins** are issued, when required, to supplement or supersede information in this manual. Information in these bulletins should be noted in the text and filed for future reference.

#### General Specifications

The data listed below only covers general specifications. For specific data and specifications on any unit or system, refer to “Specifications” at end of each section text.

PART III
PROPOSAL FORMAT
PART III - PROPOSAL FORMAT

Section 1.0: Background and Experience

1.0 Background and Experience

1.1 Provide a description of the firm's background and experience as it pertains to the type of BUS WASH SYSTEMS contained in the scope of work.

1.2 Provide a list of five (5) current accounts. For each of the accounts, please submit the following:

- The company name, size, owner or contact name, address, telephone and fax numbers, and email addresses.
- A brief description of the services currently being provided by your firm to the customer.

1.3 Considering your firm's current and projected workload, indicate your capacity to perform the work, if awarded the contract.
PART III - PROPOSAL FORMAT

Section 2.0: Personnel

2.0 Personnel

2.1 Provide a description of the following:

A. The number of qualified account representatives now employed (both full and part-time). “Qualified” means the account representatives meet the minimum training requirements of the firm.

B. Experience of account representatives and support staff that will be assigned to RTA’s account, if awarded this contract.
PART III - PROPOSAL FORMAT

Section 3.0: DBE Participation

3.0 DBE Participation

3.1 A DBE goal has not been assigned to this procurement, however, proposers may address the following:

Proposers shall provide the potential for participation with Disadvantaged Business Enterprises (DBEs) in the performance of this contract. In addition, each Proposer shall address in their proposal the following information:

A. Proposer's policies regarding hiring of DBEs, as well as support of various programs which are targeted to assist DBEs.

B. If Proposer plans to subcontract a portion of the project to a DBE, identify the areas to be subcontracted, the hours involved, and the dollar amount to be subcontracted.

C. If Proposer proposes a joint venture with a DBE jointly responsible for the project, indicate the breakdown of hours between the two and how the fee would be split.

3.2 Other Arrangements:

The RTA will consider any other arrangements involving the use of DBEs in the performance of this contract.
PART III - PROPOSAL FORMAT

Section 4.0: Proposal Evaluation and Selection Process

4.0 Proposal Evaluation and Selection Process

4.1 Although all material submitted will be considered by the RTA in the proposal evaluation and selection process, the primary basis of evaluation and selection shall be the documents specified in the Request for Proposal (RFP).

4.2 Significant criteria for evaluation and selection include, but are not limited to the following, in descending order according to importance:

Qualifications, Experience and References

Vendors should provide a detailed description of their organizations’ qualifications to perform the service. Provide experiences within the last five (5) years conducting work of similar scope. Response is to include a list of several agencies for which they have systems in place that compare to the specifications. Include contact names; email addresses, address, and telephone numbers.

Project Work Program and Schedule

Describe the proposed approach to fulfilling the requirement of the project and include a discussion on quality control and how it will be accomplished. Describe the firm’s understanding of the project per the specifications detailed in the Scope of Work and time lines.

Warranty duration and coverage; technical support

Provide information on warranty proposed and a description of the technical support procedures.

Qualifications of Personnel

Provide a resume and experience history of the Project Manager and key personnel that will be assigned to this project. Discuss the involvement of the Project Manager in the assignment and the amount of time that will be devoted to managing the project.

Reasonableness of Cost

Provide the total cost to complete the entire project.

Quality of Proposal Preparation

Proposal should be comprehensive and organized with pages numbered and a Table of Contents.
4.3 Method of Award:

A. The proposals will be evaluated by a Selection Committee established by the RTA. Proposals will be evaluated on the criteria noted above. The total evaluation points, as separately determined by each Selection Committee member, will be added and each proposer will be ranked in numerical sequence, from the highest to the lowest score.

B. RTA reserves the right to reject any or all proposals, to accept other than the lowest price proposal, to negotiate separately with any source whatsoever, and to accept the proposal considered to be most advantageous to the RTA.

C. The RTA reserves the right to select the contractor on the basis of proposals received without seeking further information or clarification from proposers.

D. Upon review of the proposals, the RTA staff will designate the most qualified proposers as finalists. These finalists may be invited to make an oral/visual presentation and participate in a question and answer session to clarify their proposal with the RTA Selection Committee members.

E. If interviews or presentations are held, the Selection Committee may re-evaluate the proposals of those firms.

F. If negotiations are held, they will be held with all proposed finalists in the competitive range.

G. The RTA staff would then negotiate with the most highly qualified firms, as evidenced by the ranking given a proposer by the Selection Committee.

H. Following the negotiations, each of the proposers in the competitive range will be afforded the opportunity to amend their proposal and submit their best and final offer. The best and final offers will then be evaluated using the same criteria as for the initial proposals, and the rankings adjusted. If there is one (1) proposal that is the most advantageous offer for the RTA, then an award may be made to that proposer. If not, the RTA reserves the right to request another best and final offer.

I. If the RTA staff is unable to negotiate a satisfactory contract with the first-ranked proposer at a fair and reasonable price, negotiations will be formally terminated.

J. Negotiations would be undertaken with the second-ranked proposer, and so on, until a satisfactory contract could be negotiated.

K. The negotiated contract recommendations would then be presented to the RTA Board of Trustees for approval.

L. Any matters concerning this procurement will be addressed directly to DEBORAH HOWARD, Greater Dayton Regional Transit Authority (RTA), 4 SOUTH MAIN STREET, Dayton, Ohio 45402, in writing. The Selection Committee members are not to be contacted by any of the proposers regarding this Request for Proposal (RFP).
M. If additional information or clarification is required from a proposer, they will be contacted directly. Each proposer will be advised in writing of any award recommendations.
PART III - PROPOSAL FORMAT

Section 5.0: Proposal Format

5.0 Proposal Format

The proposal submitted by your firm shall be organized in conformance with the following format:

5.1 Cover Letter

5.2 Executive Summary:
The purpose of the Executive Summary is to provide a brief description of the proposal to the Selection Committee members.

5.3 Background and Experience:
This section should include a brief description of the company's background, experience and prior work in the related field.

5.4 Personnel:
This section will address the training requirements, certifications, educational requirements and the prior work experience of the personnel that will be assigned to RTA’s account if you are awarded the contract.

5.5 DBE Participation:
This section should provide a description of all DBE participation as it relates directly to this procurement, should it be awarded to your firm.

5.6 References:
Provide the names, addresses, telephone numbers, facsimile numbers and email addresses, and a point of contact for five (5) firms for which you are currently providing services of a similar nature as required by the RTA.

5.7 Cost and Pricing:
This section shall contain cost and pricing information as further described in Section 6.0

5.8 Submittals:
This section shall contain the documents named below and found in Part IV of the RFP Package.

- Summary of Proposal Requirements
- Affidavit of Intended Disadvantaged Business Enterprise
- Affidavit of Disadvantaged Business Enterprise
• Non-Collusion Affidavit
• Personal Property Tax Affidavit
• Buy America Certification, if applicable
• RTA Clean Air Policy Verification
• Certification of Restriction on Lobbying
• Acknowledgement of Addenda
• Letter of AAAP Approval from the City of Dayton Human Relations Council
• Certification of Contractor Regarding Debarment, Suspension and Other Ineligibility and Voluntary Exclusions
• Certification of Procurement Integrity
• Certification of Lower Tier Participants (subcontractors) regarding Debarment, Suspension and other ineligibility and voluntary exclusion
• Bidder’s Warranty Information (as required)
• Certificate(s) of training and experience for company and/or individual(s) (as required)

5.9 Proposal Submission:

When submitting your proposal, it is imperative that the RTA receives one (1) original and five (5) copies of your firm’s proposal.
PART III - PROPOSAL FORMAT

Section 6.0: Cost and Pricing

6.0 Cost and Pricing

6.1 Contract Type:
The contract that may result from this Request for Proposal shall be a firm fixed price type contract.

6.2 Pricing Form:
Each proposer shall submit in sufficient detail the cost to provide BUS WASH SYSTEMS.

The proposer should provide the total cost for the complete Bus Wash Systems.
PART IV
PROPOSAL SUBMISSION
PART IV – PROPOSAL SUBMISSION
The Greater Dayton Regional Transit Authority

SUMMARY OF PROPOSAL REQUIREMENTS

FAILURE TO SUBMIT ANY OF THE FOLLOWING DOCUMENTS MAY RENDER YOUR PROPOSAL NON-RESPONSIVE

Proposal Submission:
Complete the following checklist indicating that the documents required for this proposal are enclosed.

- [X] Summary of Proposal Requirements
- Not Required Affidavit of Intended Disadvantaged Business Enterprise
- Not Required Affidavit of Disadvantaged Business Enterprise
- Not Required Affidavit of Demonstration of Good Faith Efforts
- Not Required DBE Unavailability Certification

RTA CLEAN AIR POLICY

As the region's public transportation provider, the Greater Dayton Regional Transit Authority (RTA) recognizes its role in improving the environment, specifically air quality. Therefore, RTA is committed to environmentally sound solutions that adhere to its primary mission of affordable, flexible, reliable and convenient public transportation that meets the needs of an ever-changing regional community.

In order to meet this clean air commitment, RTA shall:

- Encourage use of the RTA system in an effort to offset the growing use of single-occupant vehicles, the greatest source of ozone pollution.
- Adjust and expand service, when feasible, in response to population shifts and regional needs in an effort to increase use of the system.
- Assure that RTA vehicles, either through adaptation or purchase, meet or exceed the emission standards of the Environmental Protection Agency (EPA). RTA will continue to investigate technologies developed to aid public transportation in its mission to improve air quality.
- Contract only with vendors and suppliers who comply with EPA Clean Air standards.
- Invite area employers to participate in RTA’s corporate pass purchase program to increase ridership among their employees.
- Lobby for development of municipal land use ordinances and policies that encourage accessibility to mass transit.
- Maintain open communication with riders, taxpayers, public interest groups, private organizations, and government agencies to encourage free exchange of information regarding environmental issues and improvements.

CERTIFICATION OF RESTRICTIONS ON LOBBYING

The undersigned hereby certifies on behalf of

(Name of Proposer)

(1) No federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative agreement. (2) If any funds other than federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a grant, loan, or cooperative agreement, the undersigned shall complete and submit standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions. (3) The undersigned shall require that all language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance is placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by 49 CFR Part 20, modified as necessary by 31 U.S.C Section 1352. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

PART V

CONTRACT (Example)
PART V – CONTRACT (EXAMPLE)

GREATER DAYTON REGIONAL TRANSIT AUTHORITY

CONTRACT

Agreement made this __________ day of ______________________, 20__, by and between the Greater Dayton Regional Transit Authority, Dayton, Ohio, a political subdivision organized and existing under and by virtue of the laws of the State of Ohio, hereinafter called "RTA," and ___________________________ hereinafter called "Contractor."

The parties hereto, intending to be legally bound, hereby agree as follows:

ARTICLE I - SCOPE

The Contractor shall sell, and the RTA shall purchase, the following described goods and/or services:

BUS WASH SYSTEMS

all as more fully described in Legal Notice RFP No. GD 17-15.

All goods and/or services to be sold pursuant to this contract shall satisfy completely each and every specification appearing in the specifications and all other requirements which may appear in the Contract Documents.

The Contractor shall furnish all supervision, technical personnel, labor, materials, machinery, tools, equipment and services which may be necessary to perform completely all services, and to deliver and install, if necessary, all goods to be sold pursuant to this Contract, all in strict accordance with the Contract Documents.

ARTICLE II - CONTRACT

Contract Documents shall consist of the following:

A) This Contract
B) Request for Proposal (Terms and Conditions, Scope of Work and Proposal Requirements)
C) Signed Copy of Proposal
D) Addenda Issued

The Contract Documents form the entire contract between the parties hereto, any oral understandings or agreements to the contrary notwithstanding.
ARTICLE III - TIME FOR PERFORMANCE

Time is of the essence in the performance of this contract. The Contractor shall fully perform all of his obligations, including without limitation the satisfactory delivery and installation of all goods to be sold, and the satisfactory performance of all work to be done, but not later than _______________________________. This article applies even in the event of a union or employee strike, as this is a foreseeable circumstance that can be prevented, mitigated, and expected by the Contractor.

ARTICLE IV - METHOD OF PAYMENT AND MAXIMUM COMPENSATION

The maximum aggregate compensation payable by RTA to Contractor shall not exceed _______________________________.

The Contractor shall, for the payment of all sums due under this contract, look solely to the monies provided the RTA from tax revenues resulting from duly authorized taxes which shall now or hereafter be levied by the RTA, and from grant contract funds, if any, which may actually be received by the RTA from the federal government under the Urban Mass Transportation Act of 1964, as amended, for the purpose of underwriting, in whole or in part, the RTA's costs pursuant to this contract.

It is expressly understood that the RTA shall be under no obligations whatsoever for any excess costs arising from changes, modifications or extra work orders not specifically approved by the RTA in one or more writings in which the excess cost or costs is specifically set forth.

The RTA will make payment to the Contractor within thirty (30) days after its acceptance of all of the goods and/or services to be sold pursuant to this contract.

ARTICLE V - TERMINATION OF CONTRACT FOR DEFAULT

If, through any cause, the Contractor shall fail to perform fully, timely and in proper manner its obligations under this contract, or if the Contractor shall breach any of the covenants, conditions or agreements contained in the contract, the RTA shall thereafter have the right to terminate this contract by giving notice in writing which shall specify the effective date thereof, to the Contractor of such termination. In such event, any goods delivered and/or installed by the Contractor under this contract shall, at the option of the RTA, become the RTA's property and the Contractor shall be entitled to receive just and equitable compensation therefor, not to exceed the amount payable therefor under Article IV hereof. In the event of a termination pursuant to this Article, the RTA may elect instead to remove any goods delivered and/or installed and redeliver the same to the Contractor, all at the Contractor's sole expense, including reasonable charges for any time and/or labor expended by the RTA's employees.

Notwithstanding the above, the Contractor shall not be relieved of any liability to the RTA for damages sustained by the RTA by virtue of any breach of contract or warrants, or of both, by the Contractor for the purpose of setoff and/or recoupment until such time as the exact amount of damages due the RTA from the Contractor is determined.
ARTICLE VI - TERMINATION FOR CONVENIENCE OF THE RTA

The RTA may terminate this contract any time by a notice in writing that shall specify the effective date thereof, from the RTA to the Contractor, at least thirty (30) days before the effective date of such termination. In that event, any goods accepted by the RTA prior to the effective date of the termination shall become the RTA's property and the Contractor shall be entitled to receive just and equitable compensation therefor and for any services accepted by the RTA prior to the effective date; provided, nevertheless, that the amount of such compensation shall not, in any event, exceed the amount of the total contract price, as set forth in Article IV, above, properly attributable to the goods and/or services so accepted.

Neither the acceptance, by the RTA, of any goods and/or services; the payment, by the RTA, for any goods and/or services; nor both acceptance and payment, shall be deemed to waive, to compromise, or to affect in any manner the liability of the Contractor for any breach of contract, of warranty, or both of contract and of warranty.

ARTICLE VII - CONTRACT CHANGES

Any proposed change in this contract shall be submitted to the RTA for its prior approval, and shall not become effective unless it is contained in a writing signed by the Chief Executive Officer of the RTA.

ARTICLE VIII - INTEREST OF MEMBERS OF OR DELEGATES TO CONGRESS

No member of or delegate to the Congress of the United States shall be admitted to any share or part of this contract or to any benefit arising therefrom.

ARTICLE IX - PROHIBITED INTEREST

No member, officer or employee of the RTA or of a local public body during his/her tenure or one year thereafter shall have any interest, direct or indirect, in this contract or the proceeds thereof.

ARTICLE X - EQUAL EMPLOYMENT OPPORTUNITY

In connection with the execution of this contract, the Contractor shall not discriminate against any employee or applicant for employment because of race, color, religion, creed, sex, sexual orientation, gender identity, disability, age or national origin. The Contractor shall take Affirmative Action to ensure that applicants are employed, and that employees are treated during their employment, without regard to their race, color, religion, creed, sex, sexual orientation, gender identity, disability, age or national origin. Such actions shall include, but not be limited to, the following: employment, upgrading, demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship.
ARTICLE XI - DISADVANTAGED BUSINESS ENTERPRISE

In connection with the performance of this contract, the Contractor will cooperate with the RTA in meeting its commitments and goals with regard to the maximum utilization of disadvantaged business enterprises and will use its best efforts to ensure that minority, women or other disadvantaged business enterprises shall have the maximum practicable opportunity to compete for subcontract work, if any, and for the supply of materials or services, if any, which may be necessary or desirable for the performance of this contract.

ARTICLE XII - ASSIGNABILITY

The terms and provisions of the Contract Documents shall be binding upon RTA and the Contractor and their respective partners, successors, heirs, executors, administrators, assigns and legal representatives. The rights and obligations of the Contractor under the Contract may not be transferred, assigned, sublet, mortgaged, pledged or otherwise disposed of or encumbered in any way. The Contractor may subcontract a portion of its obligations to other firms or parties but only after having obtained the written approval by RTA of the subcontractor, which approval shall not be unreasonably withheld. RTA may assign its rights and obligations under the Contract to any successor to the rights and functions of RTA or to any governmental agency to the extent required by applicable laws and governmental regulations or to the extent RTA deems necessary or advisable under the circumstances.

ARTICLE XIII - NONDISCRIMINATION

During the performance of this contract, the Contractor agrees as follows:

(1) The Contractor will not discriminate against any employee or applicant for employment because of race, color, religion, creed, sex, sexual orientation, gender identity, disability, age or national origin. The Contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to their race, religion, color, sex, or national origin. Such action shall include, but not be limited to the following: Employment, upgrading, demotion, or transfer; recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The Contractor agrees to post in conspicuous places available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

(2) The Contractor will, in all solicitations or advertisements for employees placed by or on behalf of the Contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, creed, sex, sexual orientation, gender identity, disability, age or national origin.

(3) The Contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers’ representatives of the Contractor's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.
(4) The Contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(5) The Contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(6) In the event of the Contractor’s noncompliance with the non-discrimination clauses of this contract or with any of the said rules, regulations or orders, this contract may be canceled, terminated, or suspended in whole or in part and the Contractor may be declared ineligible for further grantee contracts or Federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order, of the Secretary of Labor, or as otherwise provided by law.

(7) The Contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (7) in every subcontract or purchase order unless exempted by rules, regulations or orders of the Secretary of Labor issued pursuant to Section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The Contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for non-compliance: Provided, however, that in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency, the Contractor may request the United States to enter into such litigation to protect the interests of the United States.

ARTICLE XIV - AUDIT AND INSPECTION OF RECORDS

In the event a single proposal is received, the following will be considered part of the contract.

In the case of all negotiated contracts, and contracts for construction, reconstruction, or improvement of facilities and equipment, which entered into under other than competitive proposal procedures, contractor agrees that the grantee, the Comptroller General of the United States, or any of their duly authorized representatives, shall, for the purpose of audit and examination shall be permitted to inspect all work, materials, payrolls, and other data and records with regard to the project, and to audit the books, records, and accounts with regard to the project.

Further, Contractor agrees to maintain all required records for at least three years after grantees make final payments and all other pending matters are closed.
IN WITNESS WHEREOF, the parties to this contract have set their hands to triplicate copies on the day and year hereinabove written with each copy to be considered an original.
